Will Rogers Remarks:

NEW YORK, Feb. 24. (The City Editor of the Times.)—All we seem to celebrate Washington's birthday for is so we can revive the argument as to "what he had to say about entanglements with Europe." Every speaker makes him say just what that speaker wants him to say. Coolidge says it was Jefferson that made the "wisecrack" about not meddling with outsiders. So it looks like added to all his other accomplishments Washington was a diplomat. A diplomat is one that says something that is equally misunderstood by both sides and never clear to either.

By the way, did you notice that everybody that spoke on the father of our country's birthday was a Republican? You would think the Democrats were a stepson.

Yours,
WILL ROGERS.

TAX MUDDLE FORECAST

Bank-Levy Bills
Held Invalid

Equalization Board Official's
Say Passage Would
Create Dilemma

Statement Expected to be
Basis of Battle in
Legislature

SACRAMENTO, Feb. 24. (The City Editor of the Times.)—Total invalidity of the new bank tax laws, if passed in the shape proposed by Senator Nelson and Assemblyman West, was predicted today by Richard E. Collins, chairman of the State Board of Equalization.

"Under our system of taxation," he said, "disqualification of the law would bring an ad valorem tax, he said.

"Section 36 of each of these measures," said a board member, "provides that corporations may pay the 4 per cent income tax with receipts for personal property taxes previously paid the State. This is not limited to personal property owned by the corporations. No such offset is permitted to banks.

"Under our system of taxation," he said, "disqualification of the law would bring an ad valorem tax, he said.

KIDNAP RING REVEALED

Chicago Crooks Prey of Band

Bootleggers and Racketeers
Abducted and Held Until
They Pay Ransom

Investigation of Massacre
Divulges Operations of
Underworld Gang

CHICAGO, Feb. 24. (The City Editor of the Times.)—Investigation into the St. Valentine's Day massacre of seven gangsters here has brought to light the existence of a nation-wide kidnaping ring whose method of operation has been paid and kept silent. Wealthy racketeers and others who make their living outside of lawful pursuits have been the easy prey of these operators. The nature of their victims' operations makes it impossible for them to report their experiences to the police.

The kidnaping, according to Deputy Commissioner of Police Stege, is not implicated in the police. It was a coincidence, according to him, that the trail of the kidnapers was uncovered.

HUGE RANSOMS
In the last two years the kidnapers have carried off a score or more well-to-do bootleggers, racketeers and men engaged in shady deals. In all this time but two of their kidnapings were given publicity. One was the kidnaping of a man in Toledo and the other of an underworld character in Detroit. Neither of these was reported by the police.

RANSOMS DEMANDS
Ransoms demanded and paid have ranged from \$5000 to \$10,000, according to Stege.

According to the commissioner's information the victims were taken to hideouts in Cook county outside of Chicago and held. Their ransom was paid. Cook county appears to be the main point for the ring but its members are in nearly every large city in the country.

In this connection it is recalled that Jake Adler and Frank Lawro, well-known Chicago night club owners, were mysteriously abducted some months ago. Rumors that they had been kidnaped and held for a ransom of \$100,000 for release were current at the time but no official complaint was made. After a few arrests the whole matter was hushed up.

CHECK ON MASSACRE
The only possible connection the ring may have with the Moran gang massacre, Commissioner Stege said, was if Moran forces tried to "cut in" on the kidnaping racket against racketeers. That is the possibility in which any connection will have to be founded and it is on that possibility that the investigation is proceeding, along with the general inquiry. No arrests have been made of members of the ring as yet.

MISSING FINGER MAY GIVE
CLUE TO CHICAGO MASSACRE

CHICAGO, Feb. 24. (The City Editor of the Times.)—Members of a band of men known as "Valley" gangsters, of whom Danny Vallo is the reputed leader, were sought by police today in the hope their arrest will help clear up the St. Valentine's Day massacre of seven Moran gangsters shot to death with machine guns in a North Side garage.

Rocco Belcastro, believed to be a member of the gang, is sought in particular after witnesses, whose names the police did not reveal, said that the driver of the automobile in which the slayers escaped had a finger missing from his right hand. Belcastro is described as having a missing finger. Another informant said Belcastro was driving an automobile that looked like a police squad car on the day of the killings.

Associations that Belcastro is reported to have had with the men suspected of wrecking and burning a Cadillac car believed by police to have been the car used by the killers, led to the new turn in the investigation. Both police officials and prosecutors are of the opinion that the car, which was found in North Side garage last Thursday night, is the key that eventually will solve the mystery.

In this connection Assistant State's Attorney Walter Butler and Harry S. Ditchburne, in charge of the investigation, are seeking trace of Magnus Olson on the theory that he had some relations with the slayers and that possibly he is the "James Morton" who gave Los Angeles as his home when he purchased the Cadillac car last December 13.

It is said Olson's record shows a conviction in Detroit in 1915 and an acquittal here last June on a bank robbery charge.

Authorities are holding several witnesses in seclusion and under guard. The attempted intimidation of two women witnesses, who received threatening letters, made such action imperative, it is explained.

LINDBERGH JOINS FIANCEE

Colonel Motors Straight to Morrow's Country Home
Following Landing at Mexico City

MEXICO CITY, Feb. 24. (The City Editor of the Times.)—Col. Charles A. Lindbergh, left by automobile tonight for Cuernavaca to see his fiancée, Miss Anne Morrow, within an hour after he landed here from his flight from Texas. He arrived here at 6:35 p.m.

His fiancée was not among the small group which waited at the Valbuena airfield to greet him. She had gone with her family to the country home of Ambassador Dwight W. Morrow at Cuernavaca. The Embassy learned only this morning that the aviator was southward bound and Miss Morrow did not have time to reach the field.

Lindbergh was alone in his four-passenger monoplane, City of Wichita, which he had flown from Wichita to Eagle Pass. He arrived hatless and coatless, but before he stepped out of the plane donned the coat of his dark gray suit and a gray fedora with a black band.

Although Anne was not on the field, a message from her apparently awaited Lindbergh. Dawson, the Ambassador's secretary, said that she had been waiting for him before he stepped out of the plane. She was wearing a black dress and a black hat.

HOOVER WILL TAKE OFFICE WITHOUT FULL CABINET

Several Secretaries Will be Named
After March 4 and New Rumors
Circulate About Selections

WASHINGTON, Feb. 24. (The City Editor of the Times.)—Herbert Hoover of California, thirty-first President of the United States, will take the oath of office at noon one week from tomorrow. It now is almost certain that the names of certain members of his Cabinet will be included in the list that he sends to the Senate at the time for confirmation.

Atty.-Gen. Sargent has been requested to remain in that office when Mr. Hoover assumes the Presidency. How long this will be is not known or divulged by the new President. It is believed it has not yet been decided on Sargent's successor. Col. William J. Donovan, assistant to the Attorney-General and now chairman of the Colorado River Commission, will not be named to the Cabinet at this time and may not receive such an appointment at any time. He has been one of the President-elect's closest legal and political advisers but it is not expected that he will be given either the position of Attorney-General or Secretary of War.

MELLON MAY QUIT POST

Refunding Clash
Given as Cause

Secretary Said to Oppose
Any New Advance in
Rediscount Rate

Fears Effect as Treasury
Retires Loans This Year;
Robinson Mentioned

WASHINGTON, Feb. 24. (The City Editor of the Times.)—Controversies having a bearing on the refunding of government securities are reported to have caused Secretary of the Treasury Mellon to consider retirement from the Cabinet.

Rumors in financial circles suggest the possibility that Mr. Mellon may decline President-elect Hoover's offer of another Cabinet term and that Henry M. Robinson of Los Angeles, banker and one of the three American members of the Dawes Commission, may be appointed to his place.

Both Secretary Mellon and Mr. Robinson have held lengthy conferences with Mr. Hoover since the latter's return from Florida. The reports center around the recent meeting of the directors of the Federal Reserve Bank of New York at which, after lengthy discussion, it was decided to increase the rediscount rate which now stands at 5 per cent.

DEBATE OVER FIORE
The rumors credit Mr. Mellon with having taken a hand in the arguments over the long-distance telephone and to have strongly opposed any advance in rate on the ground that such action would interfere with the refunding of government securities which must be accomplished during the coming year. So aroused over the situation is Mr. Mellon said to have been that some of the bankers got the idea that he might refuse to continue in charge of government finances if confronted with the necessity of floating securities at higher interest rates than now prevail.

While Mr. Mellon went out on the proposition of holding the rediscount rate at the present level, which is considered already high and contributes to a general level of money rates higher than at any other time in the past seven years, it is expected that efforts to boost the rate will be continued as a part of the attempt to check the record-breaking volume of speculation.

SAVING ON BONDS
Secretary Mellon has taken pride in the fact that the refunding of the second and third Liberty loans during the past two years has resulted in an interest saving of nearly \$100,000,000 annually. The Liberty bonds bore 4-1/4 per cent interest and a considerable part of the two issues were refunded at interest rates ranging around 3 1/2 per cent.

Certificates of indebtedness issued by the Treasury during the past year have carried steadily increasing interest rates. The rate was 3 1/4 per cent on certificates issued in March, 1928, 3 1/2 per cent in June, and 3 3/4 per cent in January.

President-elect Hoover and Mrs. Hoover spent a quiet day today at their country home in the morning and in the afternoon taking a long motor ride in the country around Washington in the spring weather.

No important callers are on the schedule for Monday and most of the week will be passed in preparing the Cabinet and finishing his inaugural address which must be made on the 20th.

Spaniards conversant with the situation say that while Primo De Rivera is loath to resign under pressure, the dictator is not so loath to maintain himself in power if another organized movement against him is made. They add that should he become King Alfonso himself will assume command of the army and represent the outbreak.

The Premier may resign in ten days or he may last ten years, were the words used by one particularly well-informed traveler in summing up the situation in Spain.

STRIKE LAID TO JAPAN

Shantung Revolt Charge Made

Nationalist Official Says Trouble Started to Cover Nonwithdrawal

Appeal to Powers Next Move Contemplated by China, Spokesman Avers

SHANGHAI, Feb. 24. (P)—That the Nationalist government of China feels that Japan was responsible for the revolt at Shantung last week was revealed this afternoon when a Foreign Office spokesman issued a statement saying:

"Chinese authorities have gathered conclusive evidence that Tokyo assisted Chang Tsung Chang's departure from Dairen to Shantung, assisting him to launch an anti-Nationalist movement at Shantung."

JAPAN CHARGED

According to the spokesman the Nationalist government feels that Japan "instigated the revolt, desiring to create disorder at Shantung, thereby providing an excuse for the continuance of troops at Shantung which was nearing termination as a result of the Wang-Yenchow negotiations which now are indefinitely deadlocked over the question of Japanese troops' withdrawal from Shantung and compensation for the Tsinan incident."

The spokesman declared the Nationalist government does not feel the Shantung affair is serious, being destined for quick suppression, but withal is indicative of "serious issues."

"The existing relations between Japan and China, which are trying for settlement in the interests of both countries and peace in the Orient, are at present apparently not destined for clarification."

TURN TO POWERS

The spokesman said the Nationalist government feels it has exerted every effort to reach agreement with Japan and having failed now is beginning to turn to the powers for aid. He said the Nationalist government would foreign powers to assist their assistance. His exposition is that the Shantung events now are repeating the trend which began by

GERMAN FINDS BILLION HEAP

Figures It's Number of Minutes Since Beginning of Christian Era

GENEVA, Feb. 24. (P)—A prominent German, with a brain that runs to figures, asked a friend whether he knew how much Germany must pay in reparations.

"Do you know how much one billion is?" he asked.

"It is a thousand million," answered the friend.

"It is more," said the German. "It is the number of minutes since the birth of Christ. They want us to pay in German marks 130 times the number of minutes since the beginning of the Christian era."

Japan's presentation of her "twenty-two demands."

Following these demands "China and Japan were unable independently to reach agreement. Thereupon stepped in through the Washington conference and brought about settlement, the good effects of which lasted until the Tsinan incident, when Japan dispatched troops to Shantung, professing to protect Japanese lives and property."

"She now refuses to withdraw despite the fact that the Nationalist government feels no such emergency exists."

CHINA'S PRIVILEGE

A resolution of the Washington conference gave China the right to call a commission of signatory powers to investigate sending of non-treaty troops to China. The member of the Foreign Office reiterated that the Nationalist government "does not want to take such action, but, however, feels that hope of independent settlements is apparently futile."

He added that the Nationalist government feels the action of Japan in maintaining troops in Shantung results in "virtual nullification of the good results of the Washington conference in maintaining peace in the Orient."

NATIONALIST ARMY FURIES REBELS BACK

CHE FOO (China) Feb. 24. (P)—Another sharp engagement this morning inflicted losses on the troops in revolt against the Nationalist regime in Shantung Province and drove them farther to the northwest. A large force of the rebels was surrounded at Kuein, thirty-five miles west of here, during the offensive of the Nationalist army yesterday.

Today the rebels broke through the surrounding troops but at the cost of several killed and 800 of their number taken prisoners. They retreated northwestward toward Tengchow, which now appears to be the base of the revolution.

Gen. Liu Chin-min, Nationalist commander of the Province, is consolidating his position, preparing for a fresh advance and moving supplies to the front. He is said to be within 40 miles of Tengchow, where he has independently prepared elaborate defense plans. It is said he is fully able to hold his present position and slowly drive back the opposition.

A Mukden gumbot has arrived here to assist the Nationalists. The situation west of Tengchow is obscure because of the paralysis of communications. The Nationalists here are entirely uninformed of the whereabouts of Gen. Chang Tsung-chang, who came from Dairen to head the revolt.

TEKING LEGATION GUARD MOBILIZED

LONDON, Feb. 25. (Monday) (P)—Dispatches from Peking, China, said today that American, British, Japanese and French guards were mobilized yesterday to protect the Legation quarter from possible disorders growing out of a mass meeting of Chinese.

Native troops and police, however, were able to cope with the situation. Several armed men were seen but there was no violence.

LINDBERGH AT MORROW HOME

(Continued from First Page)

ceremony while her fiancé is here. Dusk was gathering over the army flying field when Lindbergh's airplane appeared, a bright, solitary head of light prevailing over much of his route from the border. The delay caused no apprehension here although the government telegraph stations about the route were advised to be on the lookout for the colonel.

The reporters who had hoped to get details of his romance with the aviator, were disappointed.

"Maybe I can see you later," was all that he would say.

Within a few minutes after landing he had entered an automobile and was driven to the Embassy.

The absolute refusal of all connected with Lindbergh and the Embassy to divulge any information made it impossible to verify rumors that the wedding was to be held at Cuernavaca. The fact that the aviator flew here in a four-passenger plane is the foundation for the rumor that Anne might return to the United States with him by air after their wedding.

Refrigeration Project Rapped

SAN FRANCISCO, Feb. 24. (P)—A proposed State-owned refrigeration terminal on the San Francisco waterfront was characterized as "an unwise expenditure" in resolutions sent to the State Board of Harbor Commissioners today by the Watsonville Apple Growers' Association.

The resolutions, copies of which were sent to members of the Legislature, Gov. Young and the State Board of Control, point out that exports of apples are arranged in advance on carload basis and refrigerated steamer space is contracted for in advance with shipping instructions for arrival at San Francisco to connect with steamers.

POLAR WINTER NEARING BYRD

Commander Sends Ship Out as Night Approaches

Scientific Trip Attempted in Teeth of Storm

Even Spray Freezes Before It Reaches Water

(Continued from First Page)

turn back but when an attempt was made to tack it was found that ice had frozen around the rudder so thick that it was jammed. With ice cutters focused on long poles men cut and chopped around the rudder post through a hole in the deck until the rudder could be freed, but it had to be made very slowly. Men's faces from their hands and feet were nipped as they worked. Dr. Coman, on lookout on the forecastle head, was called in as the spray froze on his clothes.

In the midst of this turmoil things began to go wrong below. The steam valve in the boiler room froze in the cold draft, but fortunately the one in the engine room stayed warm. The gasket blew out and later high pressure valve slipped. They were quickly repaired, but without the engine the ship was almost helpless for a time.

RADIO ON JOB

While the wind was howling and the ship lying well over under only a few sparks, a stay and a jib, Lloyd Berkner, the radio operator, was calmly sitting in his swaying radio room communicating with the base on the Barrier, and copying messages from all over the world.

He was congratulating Commander Byrd on his recent discovery. Down below Ralph Shropshire was working the sonic depth finder, taking regular soundings in an area where no soundings had been made before.

"The scientific results will warrant the hardships," said Commander Byrd.

The ship was well off shore when a course was set back to the bay and it was not until late yesterday afternoon that she returned. She had a sheath of ice more than a foot thick around her water line. The anchor chains were cased in huge chunks of ice. The commander had sent for the dog team, and they were waiting when the ship tied up, and in a short time personal gear was dumped over on the ice.

BOLLING GOING FINE

IN WONDERFUL WEATHER

(Copyright, 1924, by New York Times and publication received throughout the world.)

ABOARD U.S. ELEANOR BOLLING, Feb. 24. (Exclusive)—Things are going fine here now except that one cog in the engine is giving trouble. The weather is wonderful and we are rolling somewhat, but not bad. We are heavily loaded and the decks are awash most of the time.

The dogs were out on the deck all day today for the first time. We are making fair time. The distance made today was 180 miles. At noon we were 300 miles southeast of Dundee, lat. 62.38 south, long. 178.12 east. Fine clear weather, moderate southwest winds. The Bolling may transpire her cargo to the wharf, C. A. Larsen for delivery to the barrier.

HOOVER CABINET WILL BE VACANT

ready for distribution to the press early this week.

AIR PHOTOGRAPHERS WILL "SHOOT" INAUGURATION

WASHINGTON, Feb. 24. (P)—Herbert Hoover's inauguration will be the first installation of the nation's President of which there will be a complete aerial photographic record.

The Air Corps of the Army announced today that two airplanes and two blimps will be used for this purpose. One plane will take still pictures of the inaugural ceremonies and the parade. The other will take motion pictures of the parade. The films will be dropped to the ground near the main buildings where they will be picked up by the Air Corps photographers. The planes will be equipped with a sound motion-picture machine with which it is hoped the music of the inauguration day can be recorded.

CAPITAL STREET TURNS TO STADIUM

WASHINGTON, Feb. 24. (P)—Pennsylvania avenue from the White House to the Capitol has been transformed from a famous street into a stadium from which thousands will witness the ceremonies attending the inauguration of Herbert Hoover as President of the United States.

Workers for two weeks have been pushing forward steadily the building of bleacher stands in every possible vantage point alongside the wide thoroughfare. Individual stores and office buildings have placed cards in their windows to advertise window space for sale.

The stands in front of the White House from which Mr. Hoover will review the long parade in his honor have been glassed in and painted white. Here and there the stands twist and turn to avoid trees, and in front of the District of Columbia Building a state stands lone, a brouse notable who is certain to see all that passes that way.

The inaugural committee and its many subcommittees have been working almost day and night to complete all the details attending the inauguration. It now is paying particular attention to the problem of seeing that all applications for housing accommodations are met promptly and satisfactorily.

OLD WAR PACT STIRS DUTCH

Franco-Belgian Treaty Reported by Press Entered Into in 1920 Provides for Mutual Allegiance

AMSTERDAM (Holland) Feb. 24. (P)—Dutch circles were stirred today by the publication in Utrecht Dagblad, a leading provincial paper, of the report provisions of the secret Franco-Belgian military convention concluded in Brussels in 1920. By the treaty the two countries would make common cause in event that either is at war with Germany or with any power assisted by Germany.

The newspaper also published the undertakings simultaneously a vigorous offensive, compelling Germany to fight at once both north and south of the common front.

Article VI binds the general staffs of the two armies to maintain continually contact necessary to carry out the provisions of the convention, which shall be subject to consultation at least once a year by the staffs.

FACTS OF MUTUAL ALLEGIANCE

Article III stipulates that both countries shall maintain a permanent force of 100,000 men, which shall be divided into three parts, one of which shall be stationed in the Rhine frontier, but shall also apply to any act of aggression on whatever front it may occur.

Article IV provides that both countries shall mobilize immediately and spontaneously without prior consultation immediately upon any third power, assisted in any way by Germany, shall mobilize against Germany.

MOBILIZING PROVIDED

Article IV commits Belgium to mobilize a minimum of 600,000 men and France a minimum of 1,200,000. Article V provides that each shall

will be discrimination against them within the meaning of Sec. 5219 of the United States Revised Statutes, which holds that national banks may not be taxed at a higher rate than financial corporations.

"The result will be total invalidity of the new bank tax."

KIDNAPERS PREY ON UNDERWORLD

(Continued from First Page)

bury expressed some skepticism after hearing the story of Dr. Loyd Tacker, a dentist, who said he had been kidnapped by four men and taken to Detroit in an automobile last Friday night. Stansbury said that Dr. Tacker had not identified anyone in connection with the Moran slayings and the dentist himself said he will be unable to recognize his abductors. Dr. Tacker returned to Chicago from Detroit last night.

It was reported today that a youth whose story has been kept secret, the police say, was in the alley back of the garage a few minutes before the shooting, and saw two men in uniforms of the county policemen enter. Going to the police, he saw five men in civilian clothes go in, and then the shooting began.

CHICAGO PASTORS DEMAND CLEAN-UP BEFORE FAIR

CHICAGO, Feb. 24. (Exclusive)—Chicago must clean up the crime situation or abandon the idea of a world's fair in 1933, a Protestant clergyman and a rabbi warned today in Sunday sermons.

The same demand for a clean-up was made in a resolution adopted by the German-American group of the fair and announced by Ernest J. Krueger, president.

"People will not come from other lands or from other parts of the United States to a community which permits murder, robbery, and other crimes," said Dr. Frederick F. Shannon, pastor of the Central Church at Orchestra Hall.

"CITY ON TRIAL"

"Before the civilized world Chicago is on trial, accused of being under the control of an interlocking crime directorate."

"We in Chicago know that the situation today is the result of what has been going on with cumulative power. Little by little and over a long period our civic life has been spread until now an amoral nation and an astonished world are recoiling from us and crying 'Un-American!'"

"To cleanse her civic garments Chicago must have the help of every citizen, every court, every officer, every business, every church, every home, every school and every citizen worthy of the name."

Dr. Orson B. Levi, speaking before a packed audience, demanded prohibition and corrupt officialdom as the prime causes of the present crime wave.

MUST CLEAN HOUSE

"If Chicago hopes to act as host to the world four years hence as the site of the world's fair, she must clean house," he declared. "Chicago can no longer escape the implications of our national crime wave. Foreign ships will not come to the fair unless our reputation is changed."

The resolution demanded that all law-enforcement agencies of the city take such vigorous action against the criminal element that Chicago will become a city attractive to participants in the fair.

Judge Asserts Charges False

(Continued from First Page)

NEW YORK, Feb. 24. (P)—Federal Judge Moscovitz, charged by Representative Somers with being involved in the bankruptcy irregularities, which already have brought action to investigate the official acts of Federal Judge "Tom" Somers, said today that the charges were false and that he hoped for an early investigation.

Somers said he had called upon Chairman Graham of the House Judiciary Committee, which is preparing to inquire into Judge Winslow's acts, and also had presented an affidavit to Speaker Nicholas Longworth of the House of Representatives, which he understood had been or was to be turned over to the House Judiciary Committee.

MADDUX
 STOPS STUBBORN
 COUGHS QUICKLY
 No cough so stubborn, so deep-seated, but yields to the healing demulcent virtues of Foley's Honey and Tar Compound. For stubborn, rasping coughs, hold the dose low in the throat for a time before swallowing. Its accurate blend of pure pine tar and fresh laxative honey with other valuable medicinal ingredients is wonderfully healing to the cold-infected surfaces, and easily raises irritating phlegm. Bronchial "flu" and troublesome night coughs quickly stopped. Ask your druggist. Sold everywhere.—(Advertisement.)

GAS IS THE ARISTOCRAT OF FUELS

Heat that Freezes

Gas Refrigeration does it more cheaply

A TINY GAS FLAME and a little water are all you need to make ice with a modern Gas Refrigerator.

Simple, Silent Operation
 The modern Gas Refrigerator is absolutely noiseless—has no moving parts to wear out or get out of order—and keeps a constant low temperature.

Costs Little to Operate
 The modern Gas Refrigerator sells for no more than any other automatic type—and costs less to operate.

Attractive Appearance
 The modern Gas Refrigerator comes in several sizes—in several colors—and adds an up-to-the-minute touch to any house.

See It Demonstrated
 You can see the modern Gas Refrigerator in operation at our Appliance Display, 810 South Flower Street—or at your dealer's.

Use Approved Appliances
 The Blue Star Laboratory Approved Seal of the American Gas Association is a gas appliance means that the appliance complies with basic, national standards.

BRITAIN'S IDLE ARMY PARADES

Unemployed Demonstrate in Trafalgar Square

Grievances Voiced Against Government

Aged Feminist Forecasts Republic

LONDON, Feb. 24. (P)—Britain's unemployed today made their protestations and demonstration in Trafalgar Square for which they had marched from the ends of the island through severe winter weather. They were joined by several thousands of London workers and unemployed.

The processions formed in various parts of the capital and converged at the famous rendezvous for all public causes. Tom Mann and other Labor leaders voiced the grievances of the marchers against the government.

PERFECT ORDER
 A number of resolutions were passed thanking the demonstrators for the courage they had displayed in making their long journey on foot during the past weeks, endorsing a charter of demands, and urging the government to take active steps to solve the unemployment problem.

Everything was in perfect order. A collection was taken in behalf of the distressed miners. It also was resolved to make an attempt during the week to see Prime Minister Stanley Baldwin.

The aged feminist, Mrs. Charlotte Despard, came from Ireland for the occasion. She was given a chair at the head of Nelson's column and was presented with a bouquet of red tulips. In the course of her speech she said that she hopes to live to see the day "when a great Irish republic will stand alongside a British republic."

RANKS REPLENISHED
 There were several hundred marchers who reached London, but they were only a fraction of the numbers from the unemployed camps of Scottish and English industrial centers, which had begun the march. As the groups from more distant points advanced their depleted ranks were filled in part by new recruits.

THREE KILLED BY POISON
 CINCINNATI, Feb. 24. (P)—Returning to his home here last night William Thomas, lumber-yard employee, found his wife, Ruth, 31 years of age, and two children, Irene, 11, and Edgar, 4 dead. The mother apparently had poisoned the children and then herself, according to coroner's findings.

THE PRIVATE LIFE of the PRINCE of WALES

(AS TOLD BY AN INSIDER)
 BY W. T. MARSDON

(Heavy responsibilities have come suddenly to the Prince of Wales, through the grave illness and slow recovery of his father, who, many believe, may never resume his duties completely. And so the world turns a new and serious interest on this young man who will be king. Hence the demand for a biography which will show the Prince as he really is. Following is the second chapter in a daily series ofkten biographical sketches, written by an intimate of the royal household.)

LONDON, Feb. 24. (Exclusive)—Preventive memory. He can recite today many extracts from French and English classics he learned in the schoolroom. A favorite piece of poetry of his is Tennyson's "Crossing the Bar." But at arithmetic and algebra and all mathematical subjects the Prince was almost hopeless.

One morning King Edward went over to Marlborough House, as was his custom from time to time, to have a look in on his grandson. When he entered the schoolroom he saw David by himself, gloomily at work with some sums in algebra. Bertie and the tutor had gone off to see a cricket match at Lords, but David had been detained to get his sums right.

King Edward would not interfere with the sentence of detention. But he got his grandson off the following day and took him to Newmarket races. It was the first time the Prince had been at a race meeting.

When he parted from his grandfather to return to London he said: "It's been a splendid day; much nicer than doing sums, though I suppose I must stick at them even if I do hate them."

"You must stick at doing what you dislike sometimes," was his grandfather's reply. "Otherwise, you would not be fit for the job ahead of you."

(Next—The Prince's Osborne Days.)

MINE OFFICIAL DIES IN ARIZONA MISHAP

PRESCOTT (Ariz.) Feb. 24. (P)—John F. Lawson, 35 years of age, of New York City, vice-president of the Lawson Mine and formerly a member of the New York Stock Exchange, was killed today when the automobile he was driving overturned on the highway leading from Mayer, thirty miles south of here. He was pinned beneath the machine and was dead when his body was extricated from the wreckage.

It was the first time the Prince had seen a lady smoking. He had heard his mother more than once vigorously condemn smoking by women, and to see his grandfather's guests doing it amazed him. A look of surprise came into his young face, and then suddenly he remembered that it was ill-mannered to look surprised and he colored deeply.

King Edward, looking at him, broke in. "David," he said, "your mother, I know, would never allow ladies to smoke in her presence; but I do, so it is all right. The women smoke nowadays, my dear boy."

This incident illustrates fairly well how King Edward instructed his grandson in modern manners and in a way of life new to him, and what he learned set the boy to thinking. The Prince regarded his grandfather as a great, important and clever man, and as a very pleasant and agreeable one when he got to know him better.

From King Edward the Prince, in addition to learning what was new to him concerning manners, began to learn other things; he learned, for example, something about the new democracy and of the development of the Labor party and labor politics, and how such things might affect his own future.

KING LOOKS AHEAD
 "Kings," King Edward told him once, "are no doubt important people, but don't forget Kings can lose their throne. And they are apt to do this if they think too much of themselves and too little of the people they rule."

The young Prince took those teachings to heart, and later they had fruit, though perhaps not quite the fruit King Edward would have wished. It was beyond doubt his grandfather's counsel that later decided the Prince to adopt a new "royal" way of life and break away from all that conventional etiquette that once separated royalties from their fellow-kind.

When Queen Mary saw how King Edward's influence was affecting her eldest son it made her bitterly angry with her father-in-law; had it been in her power she would have removed her son from his influence, but that was impossible. All she could do was to redouble her efforts to maintain her own influence over the Prince, and her efforts were partly successful.

But the sway of King Edward over the Prince was there at the same time, and perhaps it was fortunate for the youth that it was. Otherwise he might have taken longer than he did to learn that he was living in an age in which people were beginning to think differently about kings, as they were about many other things.

HATED MATHEMATICS
 When the Prince was 9 an important event occurred in his life. Henry Hansell came to Marlborough House as tutor to him and his brother Bertie. Hansell was tall, dark and handsome, an Oxford product and a born courtier, agreeable, worldly wise and quite enough of a scholar to teach the Prince all they had need then to learn from books.

The Prince in those schoolroom days did not show much intellectual power, but he was by no means dull. He had a liking for history, learned French and German readily, and showed that he possessed a

The Happy "Highwayman"

The motorist may happily disregard schedules and make his own to suit his peculiar needs.

Highway transportation is a healthy, convenient and inexpensive method of travel. And the pleasure it affords makes it the favorite means.

VIENNA'S REDS TAMED BY COLD

Jack Frost Drives Away Desire for Battle

Socialists and Fascists Parade in Peace

Public Prefers Firesides to Line of March

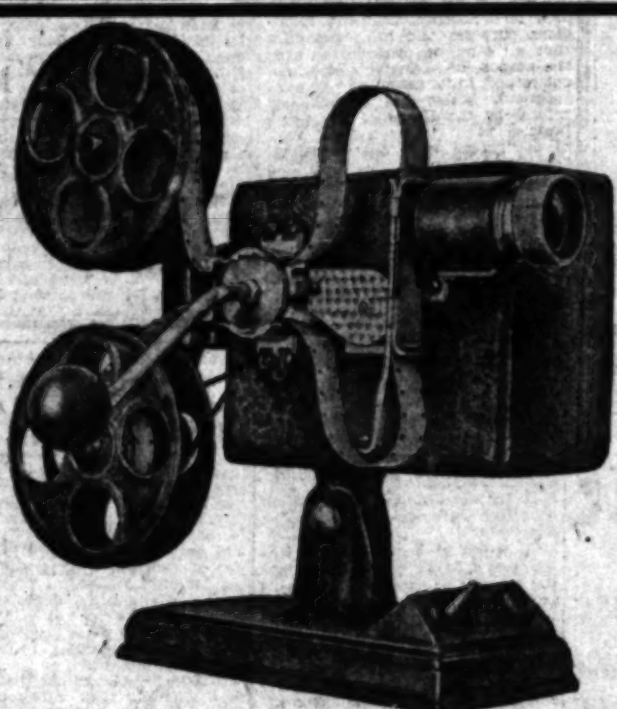

VIENNA, Feb. 24. (P)—The much-advertised parade of Austria's rival defense organizations—the Socialists and the so-called Fascists, passed off today without incident. Both parades followed their respective routes without coming in contact with each other and the participants returned to their homes in an orderly manner.

Police arrested sixty Communists after the parade for attempting to create trouble and suppress the Communist organ Rote Arbeiter for printing articles inciting to riot. The marchers received little attention from an indifferent public, which preferred the warmth of the fire-side to witnessing what was termed a "boob parade."

The Socialists, their faces pinched blue with cold, gathered in front of the statues of the founders of the Austrian republic and presented a striking contrast to the Fascists, who assembled under the shadow of Schoenbrunn Palace. The latter group was made up largely of thoroughly drilled officers of the old Austrian imperial army, wearing field uniforms and their breasts covered with medals awarded for gallantry.

The Fascists were addressed by a German leader, who urged them to save Austria from the "Red peril," fighting Socialism and Communism with the same ardor they would fight an invading alien army.

HOSPITAL PLANS REVEALED
 SEATTLE, Feb. 24. (P)—Plans for a \$3,500,000 memorial hospital for Seattle, to be a model for similar institutions throughout the country, were revealed here today by Dr. Malcolm T. MacEachern, Chicago, director of hospital activities of the American College of Surgeons.

CONGRESS WILL LABOR NIGHTS

Attempt Being Made to Clear Bill Situation

Dry Fund, Apportionment Among Problems

Action on Radio Commission Also Necessary

WASHINGTON, Feb. 24. (AP)—Night sessions and earlier meeting hours will be employed by Congress this week in the hope of clearing up a legislative situation which is threatening important measures in the few remaining days before the Hoover administration comes in.

Prohibition and reappointment of the House of Representatives membership are problems placing the House and Senate in a vortex of disagreement with such vigorous positions taken on both sides of the questions that leaders are looking with some anxiety as to the effect they will have on the whole legislative calendar.

DRY COMPROMISE READY
The dispute between the House and Senate over the proposal to increase the prohibition fund by \$24,000,000 will be only slightly postponed by the expected adoption by the House tomorrow of a compromise proposal lowering the increase to \$2,727,000. Advocates in the Senate of the higher figure, incorporated in the first deficiency bill, are showing little signs of abandoning their efforts.

Democrats in the House plan to make an effort tomorrow to send the bill with the lower prohibition figure back to the Appropriations Committee with instructions to substitute the \$24,000,000 appropriation. The \$2,727,000 increase was recommended by President Coolidge.

A difference between the House and Senate over land in national parks is threatening the final approval of the Interior Department appropriation bill with its funds for a vast number of domestic projects. The House has refused to accept the Senate compromise offered by Senator Walsh, Democrat, Montana, to permit condemnation of land in the parks except that used for residence, hotel and religious purposes and has demanded that all land be condemned for the purpose of saving forests, without respect to its usage.

Senator Walsh has stated that refusal by the House of the compromise would "cause a great deal of discussion," and other Senators threatened that the same thing would come up again if the House refused the \$24,000,000 prohibition fund increase.

APPORTIONMENT UP
The fate of appropriations measures are giving Republican leaders a good deal of concern because of the effect such action on the program mapped out for the special session to be called after Mr. Hoover becomes President. Failure to pass such important supply bills as those for the Interior Department and for emergency deficiency needs would necessitate the assembling of the House Appropriations Committee in the special session, something House leaders now are hopeful of avoiding in order to confine the extra session to farm relief and tariff.

Meeting tomorrow night, the Senate will begin discussion of reappointment of the House. This controversial measure, however, will have to wait its turn after tomorrow night, since it is preceded on the calendar by a bill for a public market in Washington. In addition the Senate first must act upon the Nicaraguan Canal resolution of Senator Edge, Republican of New Jersey, on which a vote is expected tomorrow, and hear the report of Senator Reed, Democrat of Missouri, on the finding of his committee against the seating of William S. Vane as a Senator from Pennsylvania. The Vane case comes up tomorrow.

Action on the bill to continue the Federal Radio Commission, as an administrative body also will be insisted upon by Senate leaders. This measure, however, seems to be assured of clear sailing because a petition has been circulated to invoke cloture and thus prevent a filibuster by its opponents.

With the vote on the \$24,000,000 prohibition proposal in prospect in the House, its Judiciary Committee tomorrow will endeavor to complete its consideration of the Jones bill to increase the penalties for prohibition violations, which was passed last week by the Senate. A slightly similar measure, the Stalker bill, already has been approved by the committee.

PROGRAM INDEFINITE
After disposing of the second deficiency bill, the House will take up a variety of less important measures on its calendar, with the hope of getting them to the Senate in time for final action before the end of the session. On Tuesday it will consider several bills under suspension of the rules, but whether the revived Madden Muscle Shoals bill will be included among these has not been indicated. Its program for the remainder of the week is indefinite and probably largely will be determined by developments from day to day.

Little work remains in the House committees and because of the lateness of the session most of them probably will be idle during the week.

On THE Boulevard, 30 steps from Vine.

Suits of distinction for college men

By Leopold, of Chicago, a leading interpreter of University styles

Although University men are now favoring the two-button jacket that has long been popular for business wear, there is still sharply dividing lines between the style preferred by well dressed college men and those favored by well dressed business men....the broad, rounded shoulders, notched lapel, straight back and wider trousers are favored lines for campus wear, as opposed to the rope shoulder, peaked lapels and slightly flared back of the business suit....for many years Roos Bros. have been acknowledged authorities on college styles....our shops at Berkeley and Palo Alto are favorite rendezvous for California and Stanford men....college men of Southern California will find an equally congenial atmosphere in Roos Bros. at Hollywood.

STATE WATER PLAN BOOSTED

Tracy Asks Consideration of
Conservation Scheme

Financial Disadvantages to
Southland Denied

Assemblyman Favors Bonds;
Governor Opposed

BY C. A. JONES
SACRAMENTO, Feb. 24. (Ex-
clusive)—A plan for consideration of
the state-wide water conservation
plan, coupled with the denial that
it is financially disadvantageous to

investigating the water resources of
California for the past two years.

The committee already has re-
ported, recommending a \$200,000,000
project at Kennett on the upper
Sacramento River, designed to con-
trol flood waters and generate hydro-
electric power, a \$50,000,000 barrier
across San Francisco Bay to pre-
vent the encroachment of salt wa-
ter in the delta, \$24,000,000 for
levees, canals and pumps to lift ex-
cess water up to the disinfecting sta-
tion at the Colorado River aqueduct for
a domestic water supply for the cit-
ies of the southern coastal plain.

The committee, in making this
report, followed the recommenda-
tions of outstanding engineers and
hydrographers, who for twenty-five
years have been in substantial
agreement on the plan.

FINANCING UNDECIDED
The question of financing the
project is undetermined as yet.

The committee now is seeking a
solution, with the alternative of
a state-wide bond issue or by heavy
individual assessments districts. It
concludes that the state-wide bond
issue is not a bond issue at all.

Young does not want a bond issue
of \$204,000,000 on the ballot the
year he runs for re-election.

"The committee," said Mr. Crit-
tenden, "has no thought of step-
ping in on the Metropolitan Water
District of Southern California's
and taking away control of the
proposed aqueduct from the cities
which plan to build it. It was our
intention to include the cost of the
district in the state-wide bond issue
to equalize the burden and
benefits in Northern California and
Southern California. In addition, it
likely the state will have to pay a
substantial sum for the control of
the Santa Ana River in San
Bernardino, Riverside and Orange
counties.

STATE-WIDE PROBLEM
"Water in California is a state-
wide problem. While certain dis-
tricts will benefit directly from the
construction of these projects, it is
apparent that the majority of the
benefits will be to the state as a
whole. Their forests, resorts, mines
and other industries will be threat-
ened if the populous valleys are
stifled in their growth for lack of
water."

"The prosperity of Los Angeles
county is directly affected by the
industrial and agricultural activity
of the southern end of the San
Joaquin Valley. The industries
about the delta will be re-
arded if salt water creeps into the lower
reaches of the river, and San
Francisco will suffer immediately.

"The future of California is like
a great chain, each link represent-
ing a specific region.

BOTH WILL GAIN
"While it is true that Southern
California is advancing in swift
stride, the northern section, in the
event these dams and works
are erected, there will be an im-
mediate increase in valuation in the
northern valleys, which, consequen-
tly, will lessen the financial burden
of Southern California.

"Northern California is contrib-
uting the great asset of the power
plant at Kennett. In forty years
it is estimated that the power de-
veloped at Kennett will sell for
\$44,000,000. This project will con-
tinue indefinitely to help pay off
the burden. Southern California
has no asset, producing income,
such as this.

Should bonds be voted the cost
to the taxpayer will be consider-
ably less, and will be much more
convenient, than if assessment dis-
tricts are created. Should the pro-
ject be financed by assessment dis-
tricts, there will be another
cloud on the lands and prop-
erties in the districts. Real estate
already is heavily burdened with
assessments. State bonds, natu-
rally, will not be so expensive as local
bonds."

There are many homes of wealth and luxury in Orange County,
maintained at a fraction of the cost necessary in large cities.
Yet here may be found every city convenience.

Reasonable Rentals

The various Orange County cities offer com-
fortable dwellings, hotels and apartments at rates that
make for reasonable living.

Home Ownership

Dwellings may be built or bought ready for use,
modern, comfortable homes at an outlay of from
\$5000 up, thus taking but a small portion of your
capital.

AIRPLANE COMBATS FROST

HARLINGEN (Tex.) Feb. 24. (Ex-
clusive)—In the near future air-
planes may take the place of
smoke pots in time of severe cold
in the citrus fruit and early veg-
etable districts of Texas, California
and Florida to prevent damage by
frost or freeze. It was demon-
strated upon the farm of Brown White
near here during the recent cold
spell that by using an airplane to
keep the air in circulation near the
ground the freezing of tender veg-
etation may be prevented. It was
upon a field of green beans that
the test was made.

When the weather prediction was
received in the lower Rio Grande
Valley that a temperature of 28

deg. was probable, Mr. White hired
a plane and the pilot flew from the
airport at Brownsville and spent
the night until 6 o'clock in the
morning flying around the bean
patch, near the ground, to set air
currents in motion.

The theory on which this method
of frost protection was attempted
was that the damage is caused by still
air near the surface of the ground
and that if air currents can be set
in motion and maintained during
the period of frost danger there will
be no frost or freeze.

While the bean and other early
truck crops of the valley were dam-
aged some by the recent cold, Mr.
White said that there was no dam-
age to his crop.

investigating the water resources of

about the delta will be re-
arded if salt water creeps into the lower
reaches of the river, and San
Francisco will suffer immediately.

"The future of California is like
a great chain, each link represent-
ing a specific region.

BOTH WILL GAIN
"While it is true that Southern
California is advancing in swift
stride, the northern section, in the
event these dams and works
are erected, there will be an im-
mediate increase in valuation in the
northern valleys, which, consequen-
tly, will lessen the financial burden
of Southern California.

"Northern California is contrib-
uting the great asset of the power
plant at Kennett. In forty years
it is estimated that the power de-
veloped at Kennett will sell for
\$44,000,000. This project will con-
tinue indefinitely to help pay off
the burden. Southern California
has no asset, producing income,
such as this.

Should bonds be voted the cost
to the taxpayer will be consider-
ably less, and will be much more
convenient, than if assessment dis-
tricts are created. Should the pro-
ject be financed by assessment dis-
tricts, there will be another
cloud on the lands and prop-
erties in the districts. Real estate
already is heavily burdened with
assessments. State bonds, natu-
rally, will not be so expensive as local
bonds."

There are many homes of wealth and luxury in Orange County,
maintained at a fraction of the cost necessary in large cities.
Yet here may be found every city convenience.

Reasonable Rentals

The various Orange County cities offer com-
fortable dwellings, hotels and apartments at rates that
make for reasonable living.

Home Ownership

Dwellings may be built or bought ready for use,
modern, comfortable homes at an outlay of from
\$5000 up, thus taking but a small portion of your
capital.

BORDER REVOLT RUMORS DENIED

Baja California Governor
Discredits Report

Official Conference Fails to
Substantiate Tale

Reports Laid to Agitators
Against Present Regime

NOGALES (Son.) Feb. 24. (Ex-
clusive)—Strong opposition to reported
incipient Mexican revolutionary ac-
tivities along the Sonora frontier
and the opinion that all Federal
forces will stand firmly behind Pres-
ident Porfirio Gil is understood to
represent the attitude of Gen. Abel-
ardo L. Rodriguez, Governor of the
northern district of Lower Cali-
fornia.

While Gov. Rodriguez declines to
comment on the situation, it is ap-
parent that he senses a strong na-
tional feeling developing in relation
to the forthcoming Presidential elec-
tion and credits the current unrest
to stimulated resentment of an
imaginary imposition of a Presi-
dential candidate by the government.

REVOLT PLOT DENIED
Asserted transitory activities
along the border were reported ear-
ly this week, but an official con-
ference between Gen. Francisco
Manso, commander of Federal
troops in the State of Sonora; Ar-
turio de Saracho, friend and en-
voy of President Porfirio Gil, and
Don Fausto Topeta, Governor of
Sonora, resulted in denials that
such a movement is on foot.

The disturbing rumors of develop-
ment of a revolutionary party with
base in connection with the can-
didacy of Aureo Somoza for the
Presidency have found expression
in official circles in this country.

It is said to be loyal to the
Calles-Chavez Porfirio Gil group
and there appears no well-grounded
basis reason for the report.

With Mexico just establishing a
foundation upon which to build an
economic, educational and trade fu-
ture Gov. Rodriguez, in agreement
with other leaders, looks upon the
possibility of renewed revolutionary
activities as disastrous, bringing to
ruin and no effect the advancement
of the country.

It is no secret that he regards
the movement as entirely without
justification and full of potential
harm to Mexico.

Civil war, it is argued, would
be both unnecessary and cruel,
leading only to disaster; loss of the
respect of foreign nations; with-
drawal of capital and the doom-
ing of Mexico for many years, to
isolation as an uneducated nation,
devoted to endless warfare and un-
able to sit at the council table with
her neighbors.

A revolution, it is asserted by all
loyal Mexicans, would doom self-
seeking leaders to inevitable failure
because, they say, Mexico will not
tolerate a revolution based on per-
sonal passions and ambitions with-
out existing causes sufficient to jus-
tify such radical action. These
causes do not exist and even a revo-
lutionary triumph under such cir-
cumstances, with its leaders seek-
ing only personal aggrandizement,
would serve only as a cradle for
still other outbreaks until at last
Mexico could no longer endure as a
sovereign nation.

HIGH LIGHTS IN HISTORY 1273

The Story of the World War 43—German Defeats in Poland.

by J. CARROLL MANSFIELD

AFTER DRIVING THE RUSSIANS OUT OF EAST PRUSSIA, GENERAL VON HINDENBURG, WHO HAD BEEN RAISED TO THE RANK OF FIELD-MARSHAL FOR HIS VICTORY AT TANNENBERG, INVADIED POLAND (SEPTEMBER, 1914) AND ADVANCED TO THE RIEMER.

THE RUSSIAN ARMY OF GENERAL RENNENKAMPF LAY BEYOND THE RIVER, HOLDING STRONG DEFENSIVE POSITIONS. AN ILL-TIMED GERMAN ASSAULT UPON THE RUSSIAN LINE WAS REPULSED, AND VON HINDENBURG WAS OBLIGED TO RETREAT TO THE GERMAN FRONTIER.

VON HINDENBURG THEN MADE A DETERMINED THRUST AT THE VISTULA SOUTH OF WARSAW TO DRAW OFF THE RUSSIAN FORCES THAT WERE BESIEGING THE MIGHTY AUSTRIAN FORTRESS OF PRZEMYSL IN GALICIA. AT THE SAME TIME HE SENT GENERAL MACKENSEN TO ATTACK WARSAW.

BOTH ATTACKS FAILED. THE RUSSIAN ARMY SUCCEEDED IN MAKING THE SIEGE OF PRZEMYSL. GENERAL MACKENSEN WAS DEFEATED IN HIS ATTEMPT TO TAKE WARSAW. THE RUSSIAN ARMY UNDER GRIGORIEV AND THE GERMANS WERE FORCED TO WITHDRAW FROM POLAND.

TAX RATE LOW IN AMERICA

Major Nations of World Pay Average of 18.6 Compared With 10.2 in This Country

WASHINGTON, Feb. 24. (AP)—Not a major country in the civilized world is paying so small a percentage of its income for taxes as is the United States.

The principal countries of the world on the average expend 18.6 per cent of their total income for taxes. In the United States the corresponding per cent is but 10.2.

The disparity between the effort required by the United States and by other countries to support their public services is greater than the disparity between the effort required by the United States and by other countries to support their public services.

In the first case, the tax payment probably involves little personal sacrifice, that is, reduction in the consumption of necessary food, clothing and shelter.

The United States is in the position of the first man. Our yearly per capita income and our accumulations are

DAM CHAIRMAN WILL MEDIATE

Donovan to Offer Basis of Negotiations

Conference Success Depends on His Action

Arizona Refuses Statement of Her Position

SANTA FE (N. M.), Feb. 24. (Exclusive)—Col. W. J. Donovan, assistant United States Attorney General and chairman of the Colorado River conference here, in all likelihood will take the initiative this week and offer the California, Nevada and Arizona commissioners a tangible basis on which to negotiate an agreement.

That was learned tonight from one of the upper-basin States' commissioners who is known to be rather close to Col. Donovan's confidence and is regarded as being accurate in his predictions concerning the conference chairman's plans.

UP TO DONOVAN

If Col. Donovan does carry out that plan it will be essentially the same service he performed as chairman of the Rio Grande conference which reached an agreement in Santa Fe last week after a month of seemingly hopeless parley.

New Mexico and Colorado commissioners willingly accepted Col. Donovan's basic suggestion that led to the end of the conference. In view of the fact that no definite proposal has been offered by any of the three States seeking to draw up a pact and of the apparent determination of any of the States to take the initiative, Col. Donovan is said to be convinced that the meeting will result successfully unless he does offer something definite.

The Federal representative at the conference, it is understood, has been advised by both President Coolidge and President-elect Hoover that a tri-State compact as the result of this Santa Fe meeting is the most vital factor in the Colorado River project as the government views it at this time. It is known that Mr. Hoover is especially desirous that a seven-State pact ultimately be made and Arizona brought into the fold. If that can be done in any manner at all satisfactory to the other lower-basin States.

ARIZONA NONCOMMITTAL

In event Col. Donovan does take action early next week, it is believed by some that the conference may be brought to a close within two weeks. If his suggestion of a basic pact negotiated as he has accepted, the conference is free to admit they see little hope for anything else to bring about an agreement.

Despite several efforts that have been made in the ten days of almost constant conference to draw out the Arizona commission sufficiently that some sort of a proposal from that State would be the result, there has not been even the slightest intimation of what would satisfy Arizona. On the other hand, California and Nevada have insisted to offer anything definite, other than California's demand that the commissioners from the State "will be glad to make almost any reasonable concession that will result ultimately in a seven-State agreement."

"The fact that no great progress has been made up to this time is not entirely indicative that the efforts of the conference will be in vain," said Francis C. Wilson, interstate water commissioner for New Mexico and one of the observers at the meeting. "It is true of nearly every conference of this kind that considerable time is spent in preliminary sparring for any possible vantage point that may be found."

SESSIONS RESUME TODAY

"I for one am hopeful that a tri-State pact may result from this meeting. I know that some of the others are dubious, but I feel that there is a basis upon which an agreement can be reached and that it will be found before long. I believe the conference may last two weeks more or possibly longer."

After two days spent in visiting various Indian pueblos and other scenic points near Santa Fe, the commissioners will resume their deliberations tomorrow morning. It is believed possible that one of the Utah commissioners will return in a day or two to act as observer for that State.

UTAH HOUSE EXPECTED TO CONSIDER RATIFICATION

SALT LAKE CITY (Utah) Feb. 24.

WHO'LL PAINT GOLDEN GATE?

Major Ralph Receives Applications from Many Who Would Care for Gate

SAN FRANCISCO, Feb. 24. (Exclusive)—Obviously San Francisco's famous Golden Gate has been neglected.

George Helgorth of David City, Neb., recently wrote Mayor Ralph asking for a job as gate keeper as soon as there was an opening.

Now, a woman signing her name as Mabelle Ellis, thinks the fog all these years must have made the hinges rusty and she'd like to be considered as a candidate for charwoman.

The Mayor is beginning to suspect he'll have a caller soon trying to fulfill a contract for gilding the gate.

24. (Exclusive)—Despite a report to the contrary, the six-State Colorado River compact offered in the lower house of the Utah Legislature by members of the special commission to the Senate Feb. 23, was not passed.

There is strong indication that the House will not continue to follow the general Utah attitude of marking time on Arizona and that consideration of the Hotter resolution, committing Utah to that compact, will be on the floor within the present week.

RUMORS HEARD

As the close of the Legislature rapidly approaches, some of the rumored undercurrents are creeping to the surface, among which and not the least, is the feeling among Republicans that the Colorado River compact may reach a point where Gov. Dern, Democrat, may reap the credit and thus serve himself in the way of a stepping stone to the United States Senate.

Another is the fear on the part of certain adherents of dam construction that action at this time may cover Arizona into entering a tri-State compact and put that State at a disadvantage in its negotiations with California and Nevada at the present Santa Fe conference.

Still another consideration, which is an offshoot of the latter, is that six-State ratification may be questioned by Arizona and result in plunging the whole issue into litigation, thus tying up dam construction until Congress is able to re-enact legislation, thus bringing about years of delay.

HOUSE MAJORITY

Concept at the State Capitol puts the lower house in a majority for six-State ratification. On the part of some, there is a disposition to leap all hurdles and bring the matter to an immediate issue.

In the Senate, however, an air of cool deliberation is reflected in the compromise report of the special committee, signed by Senators Ince and McCarthy, and read before the Senate Saturday afternoon. This report counsels delay toward the end of the session.

It is whispered about that there are enough votes in the Senate to defeat ratification regardless of the outcome of the tri-State conference at Santa Fe, or the assurances and concessions obtained by the Utah delegation last week.

BRAZIL GOAL OF FRENCH FLYERS

MARSEILLES (France) Feb. 24. (AP)—Lieutenant-Commanders Louis Jerome Paris and Maurice Hurel have definitely decided to attempt a flight to Brazil instead of New York and hope to start Tuesday or Wednesday. They will fly to St. Louis, Senegal, where they will pick up mail.

From there they will attempt to fly to Natal, Brazil, and proceed south to Buenos Aires. If their outward flight is successful, they intend to make the return trip immediately.

MOTHER SENT TO JAIL

OAKLAND, Feb. 24. (AP)—Mrs. Viola Crodin, 39 years of age, was arrested here today on a charge of taking her 6-year-old son from his father in San Bernardino the 14th inst. in violation of a court order issued when the couple were divorced last year. The woman was held in the City Jail under \$5000 bail.

FRENCH CINEMA FIGHT RENEWED

Foreign Producers Seek to Get American Subsidy

Campaign Launched as Hays Pact Nears Its Close

Negotiations Deadlocked on Film Importations

(Copyright, 1929, by the New York Times) PARIS, Feb. 24. (Exclusive)—The truce arranged in Paris between American and French film interests in May of last year by Will Hays, general American film representative, is about to end. French producers already have reopened a campaign to obtain a United States subsidy for their industry in exchange for official permission to exhibit American films in France.

A syndicate known as the Chamber Syndicate, which represents producers, distributors and exhibitors now is deadlocked in negotiations with the Will Hays organization for a renewal of last year's agreement. At the time this accord was concluded it was regarded only as a compromise and the Americans expected the French producers to renew the fight this year for American capital to finance their competitive efforts.

Harold Smith, Hays's representative in Europe, explains that the existing agreement does not expire before September 1, but the new cinema fiscal year begins March 1. Last year's importations of American films by France, and exhibitors for showing them in France as allowed under the terms of the Hays agreement, already are used up. Consequently, American distributors must begin working under a new agreement next month. Otherwise, French picture theaters soon will face the necessity of re-exhibiting old releases.

LIMIT REQUESTED

The producers' section of the Chamber Syndicate met recently and adopted a resolution asking the government cinema control commission to limit imports of American feature films during the coming year to 350. The Hays agreement allows 500 importations. The government commission, which is an official body, generally accepts without question or debate recommendations of the Chamber Syndicate.

Mr. Smith declares the French exhibitors have a common cause with American film producers and distributors because of much greater popularity in France of American films.

"The exhibitors frankly assert," Smith said, "that they must have American films to fill their theaters."

The French producers' resolution further seeks greater limitation of licenses to show foreign films after they are allowed into France. According to Smith the control and issuance of these licenses enable French producers to obtain indirect subsidy from the American film industry.

LICENSE SYSTEM

The government allows the French producer seven licenses to show seven of his or anybody else's films for every film he makes in this country. The American film distributors must buy these licenses from the French producers in order to exhibit their films in France.

Whereas the present arrangement requires only one license for showing one foreign film, the French producers now ask the government in the future to require five licenses for every foreign film.

French banks are unwilling to lend money to French producers on any terms. They have offered to recede from this new position regarding limitations of imports and licenses if the American film industry will lend them money. But while negotiations for a new agreement are in progress they have asked the government commission for the issuance of visas for the entrance of foreign films into France.

The Americans are unalterably opposed to any loans to French producers. They purport to have had support in this stand heretofore from President-elect Hoover as Secretary of Commerce.

CUSTOMS COURT TO SIT

SAN FRANCISCO, Feb. 24. (AP)—Associate Justice William J. Tilson of the United States Customs Court arrived here today to conduct a week's session in the Appraiser's Building, deciding disputes over duties assessable on foreign merchandise imported through this port.

The Chamber of Commerce will send foreign and domestic trade experts to the sessions, which begin tomorrow.

NEWS OF SOUTHERN COUNTIES

MINISTER QUILTS FOR PRINCIPLE

Dr. John W. Haman Resigns
Monrovia Pulpit

Strong Objection Voiced to
Interference

Hope Made That Successor
May Reunite Church

MONROVIA, Feb. 24.—Declaring that his conception of a minister's calling is too high to permit anyone to dictate to him what he shall preach from his pulpit and stating further that such effort has been made by a certain group in his congregation here, Dr. John W. Haman today submitted his resignation as pastor of the First Presbyterian Church.

Reading his request for relief from the pulpit during church services this morning, Dr. Haman offered the following reasons:

"My personal conception of the calling of a minister of Christ's gospel is so high as to not permit me to allow anyone to dictate to me what I should preach."

"A deep conviction which has strengthened through the years that the fundamental purposes and aim of the church should be spiritual, has deeply rooted itself in my thinking. I believe that the main business of the Christian Church is to inculcate the ideals of the life principle, and the spirit of Jesus Christ, in the heart of individuals and through the individuals into the social and economic order."

"I am also deeply convinced that in carrying out this spiritual aim the program as well as the method of the church must be adapted to the needs of the present. But while the objective is spiritual, the message and the method of the church must be progressive and as the present needs demand."

"Because of these deep convictions on my part, a certain group in the membership of the church find it undesirable to co-operate with the leadership and the program that I naturally issue from such ideas."

"Because of these underlying differences in my spiritual attitude and basis of action, situation has developed which makes it advisable that my resignation be submitted. I am resigning in the hope that a successor may be found to whom the membership of the church will heartily and sincerely respond."

Mr. Haman has been pastor of the local church six years, during which time he served as term as moderator of the Los Angeles Presbytery. He came here from Seattle, where he was pastor of Woodland Presbyterian Church for ten years and served several years as superintendent of Presbyterian missionary work in Western Washington.

He said that he was uncertain as to his future plans but that he does not plan to remain in Monrovia.

Angel of France Tells of Wedding

SANTA BARBARA, Feb. 24.—(P) Kathleen Burke Peabody, known as the "Angel of France" and off-duty nurse during the World War, said today that she would be married "within a few days" to John Reginald McLean, Phoenix (Ariz.) mining engineer.

Miss Peabody is the widow of the late Frederick Forest Peabody, millionaire merchant. She met McLean, son of Mr. and Mrs. William McLean, mining engineer, at Arizona and South America, in a field hospital in France. McLean was a lieutenant in the Third Hundred and Sixty-seventh Infantry and was wounded in the Argonne.

Miss Peabody was decorated for bravery by virtually all of the Allied nations during the war. The couple will spend a six months' honeymoon in Italy, returning to the United States by way of Argentina, where Mrs. Peabody is interested in mining properties.

RAILWAY EXECUTIVE MOVES TO REDLANDS

REDLANDS, Feb. 24.—The family of E. E. McCarty, superintendent of the Santa Fe Railway Arizona district, arrived by private car this morning to make Redlands their home. Mr. McCarty and his two children, Richard, 11, and Christine, 15 years of age, will make their home at 918 Cajon street, with Mr. McCarty making occasional visits here as often as he can leave his railway duties. His district extends from Albuquerque to Needles, the longest on the Santa Fe system.

Miss Christie will attend the private school of Mrs. J. J. Sussendorf, the school year, while Richard expects to become a pupil at one of the public schools.

CITY VOTES AGAINST SPECIAL ASSESSMENT

SOUTH GATE, Feb. 24.—South Gate voters yesterday defeated the proposition to levy a special tax of 10 cents on the \$100 of assessable property the result of the special election held being 383 for and 644 against.

There were five voting places within the city's limits and one of this number four voted against the proposed assessments, only one being favorable to it, that district being the Hollywood district, which has been newly assessed, the vote at this polling place being 83 for and 3 against. Had the election carried, the special tax raised would have gone toward the Chamber of Commerce work and the advertising of the city.

PIGEONS MAY ENTER GAMES

Bird Fancier Starts Preliminaries Whereby Entries From All Countries Will Participate in Races in International Olympic Program

ONTARIO, Feb. 24.—Steps toward having all pigeon organizations of the United States participate in the 1936 Olympics in Los Angeles are being taken by Capt. Ray E. Delhauer, in dispatching a plan to the organization to begin at once preparations for entering birds in the event.

Capt. Delhauer sent his plea to the Southern California Racing Pigeon Union, the American Racing Pigeon Union, the International Federation of Racing Pigeons, the National Association of Racing Pigeons, and all lovers of the great outdoors.

The statement by Delhauer said: "I need not repeat the story of the use made by pigeons in carrying the news of the Olympics in ancient times; also the wonderful work of our feathered athletes in all wars from 43 B. C. to the present, including the World War in which they were employed by the military organizations of all countries, including Germany, some 50,000 or more pigeons."

BEAUTIFICATION PLANNED

Sizable Area Near State College in San Diego to be Made Into Garden Spot by Owner

SAN DIEGO, Feb. 24.—Plans for improvement of an area of about 375 acres in the immediate vicinity of the new State College grounds, yet within the city limits, to cost approximately \$4,000,000, are under way, according to Robert M. Gregory, assistant manager of operation.

The plans involve a scheme of beautification at the threshold of the college grounds, conforming in every way to the Molen plan, and which will forever prevent the introduction of anything that may have a tendency to mar the landscape.

J. S. Perry, a retired oil operator and until a few years ago principal owner in a line of steamboats operating on the Mississippi and Missouri rivers, is the moving spirit behind the improvement, and in the carrying out of the plans which he has formulated, there is nothing but an altruistic motive, said Gregory.

Nearly thirty years ago Mr. Perry came to San Diego, accompanied by his wife, and attracted by the climate and the great possibilities which he envisioned, he purchased thirty acres of land north of El Cajon avenue and east of Redlands gardens, which then was virgin territory. With Mr. Perry's money, he drove over the country in the vicinity, using horse and buggy, with a view to making his home here.

Mr. Perry's business interests, however, called him back east and he allowed his investment to lie idle until 1912, when he purchased additional lands. There was one "key" hole, said Gregory, which he decided to build the State College to carry out his idea, and for this he paid \$17,000, Gregory said.

His plans took still more definite shape, said Gregory, when it was decided to build the State College immediately across the county boundary line, and at his own expense, without calling on the city for any aid, he laid out a comprehensive plan of improvement. He obtained the services of D. A. Loebenstein, an engineer formerly in the employ of the Hawaiian government, to carry out his plan. Working in co-operation with the City Engineering Department and the engineers for the State College, Loebenstein has worked out a scheme of beautification for the entire landscape that will stand as a monument to Mr. Perry.

LOMITA, Feb. 24.—Celebrating their sixty-sixth wedding anniversary, Mr. and Mrs. William Mendelsohn, the former a distant relative of the immortal composer, gathered their family and friends about them at their home at 2915 Poppy street today. Only the ill-health of Mrs. Mendelsohn marred the day, which was otherwise marked by the visit of hosts of acquaintances from far and near.

The marriage of Miss Rebecca Burdell and William Mendelsohn took place in the Congregational Church of Hudson, O., February 24, 1868. They came to Lomita nineteen years ago, where three daughters, Mrs. Patrick Donagan, Mrs. Josephine and Mrs. Julia Lutz, reside. A son and family live at Tulare. Mr. Mendelsohn, who is a second cousin of the composer, was born in Austria in 1848, coming to America in 1881. Since then he has lived in Nebraska, Ohio and New York as well as in this State. The new service is to be held at 2:30 p. m. at her birthplace in 1848, coming to Ohio in 1859.

LA HABRA SOON TO GET HOUSE-TO-HOUSE MAIL

LA HABRA, Feb. 24.—Starting April 1, next, La Habra will have a house-to-house postal delivery, George M. Eby, postmaster, announced. Permission to inaugurate the service has been granted by the Postoffice Department, according to a telegram received by Mr. Eby from Phil D. Swing, Eleventh District Representative.

The new service is to touch all the district within the La Habra incorporation and a small territory adjacent. Postmaster Eby said.

MEMBERSHIP DRIVE STARTED

HUNTINGTON PARK, Feb. 24.—The Huntington Park Lions Club has entered into a membership drive which will continue until the middle of May, when the losing division will entertain the winning division, and also the ladies of the entire membership to a theater party which will be held after May 15, at one of the theaters in Los Angeles.

FLORISSA ATTRACTION VISITORS
EL SEGUNDO, Feb. 24.—Blue lupin in bloom fully in advance of its usual appearance drew throngs of wild-flower enthusiasts to the hills here today. The sand verona, which is a deep pink and the wild daisies also show scattered bloomings.

MANY MUSICIANS AT BEACH SCHOOL

EL SEGUNDO, Feb. 24.—Students of the local high school believe they have attained a world record in maintaining the largest active orchestra for its enrollment of any on record, having a forty-two-piece orchestra out of a total school enrollment of 192, or more than one orchestra member for each five pupils.

JUDGE MADE INSTRUCTOR

HUNTINGTON PARK, Feb. 24.—Judge Edward H. Miller of San Antonio township court, has been employed as a part-time instructor at Lincoln University in Los Angeles. The judge is to instruct three classes in real property laws. As the duties of judge in the local court do not occupy all of his time, he has been sitting as judge in one of the Municipal courts in Los Angeles four or five days each week.

YOUTH ARRESTED AS SUSPECT IN PASADENA CRIME

PASADENA, Feb. 24.—Herman Grisham, 16 years of age, of 1179 Wesley avenue, is being held in the City Jail on suspicion of being one of two young men who last night held up the Broadway service station and escaped in a stolen automobile. The robbers obtained \$73 from David La Rue, the service station operator, after threatening him with a revolver.

The suspect was arrested today in front of the South Pasadena American Legion clubhouse by Officers Check and Allen of South Pasadena. At the time of his arrest, Grisham is reported to have been in the act of trying to start a South Pasadena Legionnaire's parked car.

Lieutenants Kaighn and Decker recovered the car which was figured in the hold-up in front of the Washington Theater.

COWBOY STARTING DUDE RANCH

Health Center in Elaborate Plans

is the original tomahawk carried by the Chief Geronimo of the Apache tribe.

After traveling through Arizona, New Mexico and Southern California, Burnett selected Palm Springs as the ideal spot in which to establish a health resort.

Under his direction, patrons of Ye Desert Home, bungalow resort on the highway near El Mirador, there are thirty-two bungalows in this group, all furnished in picturesque desert fashion.

In the main tower Burnett has arranged a unique display of Indian blankets, pottery, roadcraft, hunting knives, arrowheads, moccasins and curios. An added feature

TRAPPER TRAPPED WITH WOMAN

Officers Locate Wanted Man Through Newspaper Stories of His Killing Mountain Lion

UPLAND, Feb. 24.—Trapping lions is one thing, escaping the trap of the law is another. Ralph A. Unger, 43 years of age, was good at the former, but poor at the latter.

His new home probable prosecution under a Mann Act charge. Recently, Unger was credited with having trapped and slain a huge mountain lion in the vicinity of Camp Baldy, in San Antonio Canyon for which he was preparing to collect in his home.

While this was going on, a search was being made from Arizona to California for Mrs. Grace Lewis, 22 years of age, and her 3-year-old daughter. Lewis has found her through Unger's mountain lion. According to Lewis, his wife became acquainted with Unger through a letter he wrote her while on a visit to Palo Verde Valley. When she returned to Arizona, Unger is said to have followed her and continued paying her attentions.

Then, when Unger returned to California, she went with him, according to Lewis. Unger was unknown to Lewis, but he knew he was a trapper, and when the story of Unger killing a mountain lion in Camp Baldy area was printed in the newspapers, it was called to Lewis's attention. Unger was arrested in the County Clerk's office while seeking further information on collecting trophy lions. The mountain lion he said he trapped.

Investigation by County Game Warden W. O. Malone, revealed that the lion had been caught in a trap set by boys, and that Unger came along and shot it and claimed the bounty, which will now go to the boys. Denial was made by Unger that he brought Mrs. Lewis to California with him. She is being held on an open charge.

VOCATIONS ANALYZED

Expert Tells Club Men of Present-Day "Disease" Which Puts Many Beginners in Wrong Lines

INGLEWOOD, Feb. 23.—A vocational counselor is needed in every high school and the school without one in its family is incomplete today, it was declared here by Howard A. Campion, principal of the Frank Wiggins Trade School in Los Angeles, addressing the Inglewood Kiwanis Club. This declaration was made in the course of a program arranged by Roland C. Robbins, chairman of the vocational guidance committee of the club.

Speaking on this subject, Campion declared that there is a social and economic problem developing among the young people, a disease which he termed "White Collaritis," a tendency to shy away from certain kinds of work, and that it is to correct this tendency and to give opportunity and encouragement to those desiring to learn a trade that the Frank Wiggins Trade School, which is a free school, was founded.

An idea of the opportunities awaiting those with trades was referred to by the speaker when he told of the difficulties encountered in getting instructors for the machine shops, the setting and chief departments when advertisements for men brought no less than 125 replies. The salary for this job, which is a six-day instead of a five-day one, pays only \$155 a month, yet graduates of Harvard, Princeton, Stanford, U.S.G. and other colleges and universities eagerly sought it, Campion said, pointing out that the white-collar man has more confidence in the results of a vocational training than the man with a trade.

"Don't misunderstand me," he said, "it is not a question of no opportunity for the white-collar man, less pay than the man with a trade, but there are too many trying to short circuit the system in order to get into the top of industry without going through the preliminary toll that assures a sound foundation for advancement."

The previous highest monthly total from here during January, 1928, an increase of more than 400 per cent, Dert declared. An increase of nearly 100 per cent in the number of pieces of mail received in last month's total of 779 pieces for January, 1927. Despite the fact that January's total fell short of the previous record, the 1928 total, it was more than three times the total of 23,421 pieces for December, 1927, Dert pointed out.

The previous highest monthly total here, exclusive of that of last December, was 56,074 pieces, reached last September. That the use of mail is constantly on the increase here is indicated by a comparison of annual totals for the last two years, the total for the year 1928 being 449,313 pieces, compared with the total of only 173,233 pieces for the year 1927.

The architects are busy on plans for a large amount of heavy construction work to begin after April 1, said Knecht, and there is no reason to believe that there is no optimism of the future. In his opinion 1929 will be one of the greatest years in the history of San Diego along building lines.

In addition to a permit issued to the Board of Education for construction of a concrete warehouse at 2107 Commercial street, to cost \$61,000, a number of smaller permits were issued, making an aggregate of \$79,500 yesterday.

CHAFFEY TEACHER PUBLISHES BOOK

ONTARIO, Feb. 24.—"Economic Biology" is title of a new textbook, written and edited by George P. Weldon, member of Chaffey Union High School faculty, and Pacific Coast authority on pomological subjects. The book will be off the press soon, and is to be used as a textbook for students in advanced biology, high school juniors and seniors, and in junior college.

It is said to be a valuable book of reference for ranchers, farmers and growers. The book contains 450 pages and 300 illustrations. All plans and flowers and fruits mentioned in the book are given their scientific and common names alike. Two previous books have been published by Weldon. They are "Pear Growing in California" and "Apple Growing in California."

HOBOS FAILS TO KEEP PROMISE TO WORK

UPLAND, Feb. 24.—This will probably cause grief among the ranks of the tramp family. Weldon Jackson Baker applied at a home here for something to eat and was given food, on condition that he split up a pile of wood. Agreed. But when Baker got the wood with the food, and learned that the woman's husband was not at home, he wandered away, police were told.

Judge George R. Crane gave Baker a sentence of sixty days, in the County Jail, most of which time he spent outdoors on county roads. Baker said his age is 18 years.

PLAN SUNSHINE SERVICE

OWENSMOUTH, Feb. 24.—First plans have been started by members of the Owensmouth Woman's Club for the annual Easter sunrise service that will be conducted this year on March 31, next, in the Greek Theater of the Owensmouth Country Club. The breakfast for the service is being given by Mrs. W. Walter Monroe, Mrs. Clyde P. Metcalf and Mrs. W. E. Bechtelmeier. Each year these services attract several thousand persons from all over San Fernando Valley. An elaborate program is always a part of the ceremonies.

SECOND BREAKFAST FOR JUDGES PLANNED

INGLEWOOD, Feb. 24.—The second annual breakfast in honor of Superior Court judges of Los Angeles county will be held here early in April by the Inglewood Bar Association. It was announced today by Attorney William Wellington Parrow, president of that organization. Attorney Vernon P. Spencer, the secretary, is making arrangements for the gathering, which will be held at the Potrero Country Club. The breakfast for the Superior bench of the county last year was eminently successful, more than 90 per cent of the judges attending, so that it was decided at that time to make the gathering an annual event. Newcomb County, then president of the association, inaugurated the idea.

Last-Minute News of Interest From Petroleum Fields and Marts of Trade

OIL EXPERIMENT HOLDS INTEREST

Reduction in Tank Farm Fire Losses Sought

Shell Company Making Tests at Martinez Plant

Success Means Huge Saving in Insurance Costs

At its refinery near Martinez the Shell Oil Company is conducting an interesting experiment for the purpose of working out a method whereby the danger of tank farm fires can be greatly minimized and the cost of oil fire insurance proportionately reduced.

There have been many oil tank farm fires started in this state by lightning, but Shell is working on the theory that induced static electricity is responsible for most of the conflagrations.

Between the surface of the oil in the tanks and the top of the tank there is always a layer of vapor arising from the oil. Many companies have experimented with pumping this vapor away as rapidly as it rises, but Shell is putting into practice the idea of filling the vapor space in the top of the tank with carbon dioxide. This gas is said to be nonflammable and is consequently regarded as good insulation against fires.

The company has invited representatives of various fire insurance companies and oil corporations to visit Martinez and observe its experiments with carbon dioxide gas.

Some of the largest users of paper here in southern California—department stores, shirt, hat, shoe, and underwear stores, and other wholesale and retail trade—which appreciate craftsmanship, service and quality, have for years given the producers of

United Paper Box Co.

all the business they could handle without solicitation. The new plant, with double capacity, will be one of the most efficient in the United States and will take care of steadily increasing business volume. A participation in this profitable business is available through the purchase of the

PUBLIC WORKS GAIN GREATLY
Total for Last Three Years Exceeds Twelve Before
Improvements in Triennium Amount to \$69,326,660
Tabulation Gives Details of Many Street Projects

Public improvements completed in this city during the past three years exceeded in value the total for the twelve years preceding. It was shown in a tabulation made public yesterday by the engineering department of the Board of Public Works. Costs of work for three years ending July 1, 1928, were \$68,326,660, while the total costs for twelve years ending in 1925 were \$60,563,539.62.

During the three-year period mentioned \$74.75 miles of streets were paved, while during the twelve-year period 601.683 miles were paved. In the three-year period 329.73 miles of storm drains and 1124.46 miles of sanitary sewers were built, while the corresponding figures for the twelve-year period are 120.61 and 928.62.

SUBWAY TUNNEL
Until the fiscal year of 1926-27, it was not found necessary to expend any money for construction of pedestrian subways, but since that time \$281,203.71 has been spent for last purpose.

The totals for the fifteen years show that 1276.433 miles of streets were paved at a cost of \$79,209,320.25; 348.74 miles of storm drains were built at a cost of \$12,206,484.58; 2051.28 miles of sanitary sewers were built at a cost of \$19,103,142.75; \$4,108,038.98 was spent for bridge construction and \$261,203.71 for pedestrian subways, making a grand total of \$119,910,189.97 for the fifteen years.

TOTAL MILEAGE
The tabulation also notes that the total length of improved streets in the city on July 1, 1928, was 2974.17 miles, of which 1484.34 miles are permanently paved, and that almost one-half of this mileage was paved during the past three years.

All of this work was done under the supervision of the engineering department, which is one of the largest divisions of the city government, employing more than 3500 persons in Los Angeles, who did the work in the city hall, the department maintains branch offices at Van Nuys, Sawtelle, Venice, Wilmington, San Pedro and Hollywood.

County Fire Department Given Praise
Complimenting the "efficient and reliable" county fire department, thirteen foothill cities have sent a joint letter to the Board of Supervisors, through the Angeles Forest Protective Association, commending the work of the department under County Fire Warden Spence D. Turner.

Drug-Store Chain Owner Will be Laid to Last Rest in Calvary Cemetery

Funeral services for Charles L. Ferchaud, owner of a chain of drug stores in Los Angeles, who died Saturday, will be conducted tomorrow in St. Agnes Church at 9 a.m. Burial will be in Calvary Cemetery.

Another prize winner in the puppy class is Grano-De-Oro-Mu-Scott, a 6-month-old dog owned by Mrs. Gladys M. Waters of Lemon Grove, Mrs. James Bishop's dog, X-Quis-It-Moye, took second prize in this event.

The chief judge at the show was Mrs. William B. of Baltimore. The show is expected to have been the largest ever held in America and was arranged under the direction of Mrs. C. A. Latham. The success of the show in Los Angeles and the interest displayed in it by dog lovers prompted the sponsors toward a move for the International Show show here next year.

Council Hears Protests Today
The City Council is scheduled to hear protests today against the confirmation of assessments for the improvement of Beverly Boulevard between Harper and Norwalk avenues of Mt. Angelus Drive between York Boulevard and Wayland street, and of Seventeenth Place between Orville and Vermont avenues. It also will hear protests against the confirmation of assessments for the installation of new lighting appliances on Glendale Boulevard between a point 148.56 feet northeast of Glendale avenue and a point 120 feet southwest of Glenhurst avenue.

FRANK KEENAN, ACTOR, EXPIRES
Five Days of Pneumonia Proves Fatal
Had Been on Stage Nearly Half Century
Funeral Services Will be Conducted Wednesday

One of the original portrayers of Rip Van Winkle went to his final sleep yesterday. Frank Keenan, 70-year-old veteran of the stage and screen, succumbed to an attack of pneumonia after an illness of about five days. His remains will be laid away Wednesday for the slumber from which there is no awakening.

Keenan, who was well known throughout the country and had appeared in stage productions in nearly every city of the United States, was a veteran of the first magnitude in the '30's and ranked among the foremost stage artists until he came west and took up motion-picture work, in which field he also occupied a prominent position.

STUDIED IN BOSTON
The actor was born April 8, 1858, in Dubuque, Iowa, and first donned the grease paint as a student at Boston College. His first professional experience was with the Boston Museum Stock Company at the age of 22, supporting Joseph Proctor.

From his Boston engagement he went to New York to play in "The Capitol," "A Poor Relation" and other hits. It was at this time that he also played Rip Van Winkle and was a member of the "Hearts of Oak" and "The Warrens of Virginia" and other plays. He took up direction after a short time and produced several original productions.

Many tours "on the road" were made by him and he is said to have had one of the largest personal followings throughout the country. He entered motion pictures in the early days of the industry and is said to have amassed a large fortune through his endeavors in that field.

He returned to the stage at intervals, however, and in addition to playing in legitimate productions made several vaudeville tours. His sixty-third birthday was celebrated by the company he was with at the time.

WEDDED THREE TIMES
Tragedy entered his life on April 23, 1924, when his wife was stricken with a stroke of apoplexy while watching her husband portray a role in "Fame" at the Writers' Club and died a few minutes later. The couple had been married forty-four years. Mrs. Keenan had played in the same company and many times before.

WEDDED THREE TIMES
Tragedy entered his life on April 23, 1924, when his wife was stricken with a stroke of apoplexy while watching her husband portray a role in "Fame" at the Writers' Club and died a few minutes later. The couple had been married forty-four years. Mrs. Keenan had played in the same company and many times before.

JACOBSON CASE PLEAS DUE TODAY
Eight Indicted Will Come Into Court of Judge Shaw; Mrs. Grimes to Appear

Five police officers, a politician, an asserted former vice-ruler and a woman are docked to appear in court today in the Jacobson case. The case is being heard by Judge Shaw.

Those due to appear are Detective Captain Walls and William Jacobson, who are charged with conspiracy "falsely and maliciously" to arrest Councilman Jacobson in a morals raid nearly two years ago.

Reports last week had some apprehension for the safety of Mrs. Grimes, who is conceded to have turned state's evidence. She was said to be missing for the last time.

At the time of the arrest in August, 1927, Jacobson was charged with conspiracy to arrest Councilman Jacobson in a morals raid nearly two years ago.

After many months of intermittent investigation, which Mrs. Grimes' purported affidavit assisted in bringing to a climax, the 1928 grand jury returned the indictment shortly before the members retired as jurors.

IMPROVEMENTS ASKED
Petitions have been received by the City Council for the improvement of Seventy-first street between Victoria avenue and West Boulevard and of One Hundred and Sixty-fifth street between Vermont and Glendale avenues. The Council also has received a petition for the installation of ornamental lighting posts on Melrose avenue between Vermont and Normandie avenues.

KERCKHOFF'S RITES TODAY
Services for Pioneer Power Man Will be in Charge of Unitarian Pastor
Last rites for William G. Kerckhoff, pioneer resident of Los Angeles and a recognized leader of hydroelectric power development on the Pacific Coast, who died Friday, will be conducted at the family residence, 730 West Adams street, at 2:30 p.m. today. The services will be in charge of Rev. E. Stanton Hodgkin of the Unitarian Church. Burial will take place at Evergreen Cemetery.

The Lancer
by Harry Carr
WORD comes from the Polar regions that the Eskimoes have gone wild with enthusiasm over aviation. This suggests a very curious social experiment.

TOO GREAT A LEAF
These ice-bound savages are virtually men of the Stone Age. Airplanes will be difficult for them to see and difficult for them to handle. The intervening steps between a period of about 5000 B.C. to 1889 A.D.—at least in every physical and outward aspect.

THE CRIMES OF KINGS
Through the wonders of the x-ray, the Field Museum scientists have been able to determine the diseases of which the ancient Egyptians died—this from the evidence of the mummies.

EDITORS GROW CONFIDENT
This new confidential mood of magazine editors is embarrassing. Reading old magazine files, you will find that, in the earliest days, they didn't even publish the names of the authors.

THE DEPARTING GUEST
There must be something and a little sardonic about the last days of a President in the White House. The faces of the public are so obviously turned toward the new boy. Whenever the outgoing President speaks, the nation receives his words with a sort of "what-are-you-still-here" air that must be discomforting.

EXPENSIVE G-STRINGS
I don't know what a "genre" dancer is; but one has been arrested in New York on the charge of trying to smuggle in \$1,000,000 worth of silk costumes. Judging from the amount of clothes that "genre" dancers wear, genre dancers must be a pronouncedly different breed; or else the silk they wear must come high.

CABINS FOR SCOUTS
RESERVED BY BOARD
In order to encourage more use by Boy Scouts of the boys' camp in Griffith Park, the Playground and Recreation Commission has adopted the recommendation of Sup't. Heiste that the Boy Scouts of the city shall be given exclusive use of some cabins and tents at the camp. Heiste stated that Scout headquarters had informed him it will promote camping among its members providing the Scouts can be assured of accommodations one week in advance.

AUNT HET
BY ROBERT GUILLIN
"I know it's hateful, but if I didn't make light of Ella's operation an' keep her mad, she'd be over here borrowin' something every day."

Killer Suspect Held After Harbor City Fray

REVELER SLAIN DURING BRAWL

Police State Drinking Party to Blame in Affair

Girl in Car at Moment of Fatal Encounter

Witness Says Money Demand Voiced by Accused

John Woods, 30 years of age, an oil field worker of 1023 Ohio street, was shot to death early yesterday, and his alleged slayer, Waldo Emerson Nixon, 23, of 400 East Anaheim street, Wilmington, was arrested on suspicion of murder as the aftermath of what the police declare was an all-night drinking party at Harbor City. The shooting occurred shortly before dawn on the street in front of 1023 Ohio street.

At the time of the slaying, Woods was accompanied by Virginia Hill, whose address is not given, and W. E. Fove, of 307 Prospect avenue, both of whom, in addition to Fred A. Csarnek, a longshoreman, 25, of 426 Palo Verde street, San Pedro, are being held as material witnesses.

STORY RELATED

According to the story told by Fove, he and Woods and the girl were having the Western-street address in their car when Nixon leaped on the running board and covered them with a gun and ordered them to turn over their money and valuables. Instead of complying Woods, who Fove said, had been drinking heavily, leaped from the car and challenged Nixon to "come on and shoot." Nixon fired, Fove said, but the bullet went wild. Woods then continued to advance toward the armed man and was fatally wounded by the second shot, the 35-caliber bullet showing its way through his body.

At the outset of the altercation, according to Fove, Csarnek came up on the run and believing Woods and Fove were attacking Nixon, stepped in and knocked Fove out with a blow behind the ear.

SUSPECT FLEES
After the shooting, Nixon fled. Fove then revived and with the Hill girl and Csarnek reported the slaying to the Wilmington police.

Detective Lieutenants Evans and Dunphy hurried to the Western-street address and learned that Nixon might be found at 346 West Tenth street, San Pedro. Knocking on the door there they were told, they say, by Nixon with the revolver. They beat him to the door and took him into custody.

According to the detective, Nixon, who they say has a long record of arrests in the past, admitted doing the shooting. The body of Woods was removed to the Woods Mortuary in Wilmington.

GASOLINE STILL KEPT IN LOW

(Continued from First Page)

They have been losing money for the last two weeks.

DEALERS PLAN NEW ATTACK ON GARAGE MEN

SAN FRANCISCO, Feb. 24. (Exchange)—While gasoline row in San Francisco today anticipated that a declaration of peace by the major oil companies ended in the price slashing war will be preceded by a reduction of the wholesale quotation tomorrow morning at 8 1/2 cents, organized service-station dealers prepared to launch a counter-offensive tonight against garage men.

Complaining that the Garage and Property Owners' Association has steadfastly obstructed efforts by the station men to stabilize the retail price, Joseph I. Bury, secretary of the Retail Service Station Dealers' Association, announced that tomorrow his organization will vote on a resolution to retail gasoline at cost price.

Bury made his announcement just before going into a conference at Oakland with W. P. Ostrander, attorney for the organized garage men and independent service-station dealers of East Bay cities. Ostrander has asked the San Francisco station dealers to support him in obtaining the passage of a State law to place the sale of gasoline under regulation of the State Railroad Commission and authorize the latter to fix the price.

Ostrander's proposal was placed before the Garage and Property Owners' Association here two weeks ago, but nothing came of it.

"Our members consider it impractical," said Charles P. Butler, vice-president of the San Francisco garage men. "We consider too much regulation dangerous. If the State is going to fix the price of gasoline it also should fix the price of milk and bread."

RETAIL PRICE OF OIL AFFECTED IN GAS WAR

SEATTLE, Feb. 24. (AP)—The Pacific Coast's gasoline will dip its finger into the retail price of oil here tomorrow.

Following an announcement tonight of the Gasoline Alley stations that they would sell gasoline at 10 cents a gallon and 9 cents with oil tomorrow, McKale, Inc., declared they will not only meet the 10-cent price, but will slash 6 cents a quart from the regular price of lubricating oils and reduce greasing-job prices from 35 to 60 per cent. They also announced a cut in the price of tires.

The lowering of prices at Seattle's largest service-station chains will bring the quotation of practically all of the leading retailers to 10 cents. Gasoline Alley and McKale were selling tonight at 11 cents, another popular price. A few stations were still clinging to the new-high price of 12 1/2 cents.

There are now nearly 8,000,000 country highways in the world.

AUTHORESS SEEKS ATMOSPHERE

West Coast of Mexico Will be Visited

Mrs. Elbert Wing (Monica Shannon)

IN SEARCH of material for further writings, Mrs. Elbert Wing who as Monica Shannon is known for her "California Fairy Tales" and other volumes of folklore, will embark with her husband, Walter G. Roberts, on a Mexican government freighter Washington, for a protracted cruise down the Baja California coast, as far as Mazatlan, and up in the Gulf to La Paz.

Mrs. Wing expects to be away about two months, most of which will be spent in and about Mexican west coast ports where she believes the fisheries of the Mexicans and Indians will provide her with much colorful atmosphere for her literary work. Francisco Cornejo, Mexican artist now in Los Angeles, has arranged for his uncle, owner of fishing concessions at La Paz, to be host to the Wings during their stay at La Paz.

The authoress and her husband were in Los Angeles yesterday from their home in Three Rivers, in the Sierras, and spent the day with Mr. Wing's mother, Mrs. Morace Wing at 1017 Eldon street.

COUNCILMAN LEWIS WILL MAKE RACE

Present Member of Board Will be Candidate to Succeed Himself

Byan Lewis, who was appointed by the City Council to fill the vacancy in that body caused by the resignation of the late Mayor S. H. A. Lewis, announced yesterday his candidacy to succeed himself.

As a representative of the eighth district, Lewis declared that he reached this decision after he has been urged by civic, church and social organizations to make the fight to retain his seat.

In the announcement of his candidacy, Councilman Lewis, who once was City Assessor, said he will base his campaign on a promise to do all in his power to relieve the home-owners from the burden of special assessments by obtaining greater allocations from public funds for public improvements. His announcement follows in part:

"I have lived in Los Angeles for more than forty years. I have been a resident of the district I now have the honor to represent for fifteen years. For some years I served as City Assessor and in that capacity came in intimate contact with the problems of the city. This contact has greatly assisted me in dealing with the problems of the present office I now hold. I believe my long residence in the city, my intimate knowledge of city affairs, qualify me for the high office that I now seek."

"One of the most vexing problems confronting the property owners of Los Angeles is the matter of special assessments. The taxpayer can be granted material relief through more substantial allocations of public funds toward reducing the costs of improvements to the individual property owners. To this end I pledge myself to devote my vigorous effort to reduce the assessment burden of the home-owners."

RITES ARRANGED FOR KERCKHOFF

(Continued from First Page)

Includes: W. L. Valentine, M. J. Connell, J. E. Sartori, J. E. Cook, E. E. Millikin, James Omer, A. C. Balch, J. J. Mauser, H. W. O'Malley, Judge Charles Moore, J. Benton Van Natta, Ben R. Meyer, A. G. Wilson, Dr. E. A. Bryant, Dan Murphy, Burton Greene, Henry Krausman, Robert Omer, A. E. MacBeth, E. O. McLaughlin, J. M. Cockins, James Hobbs, Edgerton Orsigin and L. M. Farnham.

Because of the heavy harvest, Australia already has exported 1,500,000 bushels of wheat this season.

BRITON PRAISES STATE'S ROADS

Public Education Called Better Than Europe's

Court Procedure Impresses English Journalist

Cordiality of Greetings Cause for Comment

(Continued from First Page)

spirit of the proceedings impressed me deeply, despite the absence of formality which must strike one accustomed to an English court with its judge and counsel in their white wigs and long black gowns. It was a grateful surprise after the stories one has heard in Europe of grumbling attorneys and chattering spectators who pervert a court of justice into a music-hall stage.

My second experience was my meeting with a real live Sheriff. Memories of the Wild West of yore had prepared me for a romantic figure with bristling moustache, clad in top boots and hung with gun-shooters like a battle trophy. Instead I was introduced to a charming gentleman with a ready smile who drew from his pocket nothing more deadly than a packet of cigarettes. Such was my reassuring encounter with Mr. Tom Hutchinson, Sheriff of Inyo county.

SPECTACLE SEEN

Next morning the self-sacrifice of our host at the hotel gave me the opportunity of seeing one of the most beautiful spectacles I have ever been privileged to gaze upon the sunrise on Mt. Whitney and its fellow giants of the Sierras. As the first rays of day struck the summits their snow-capped pinnacles glowed warm rose against the deep-blue shadows below; the whole skyline seemed tipped with fire which crept slowly down the slopes as the sun climbed into heaven. Outside our window a cotton-tail sat up and reached his face unconcernedly with his forepaws, while two rufous mountain quail sought querulously for their breakfast round his feet.

Later in the day I had the privilege of seeing my first American high school student. The cynic in this country is far ahead of that of Britain and most European states in the ease with which the children of poorer parents can obtain as good an education as the richest.

In England most children of the poorer classes cease their schooling in their early teens and only a few of marked ability receive sufficient assistance from the state to enable them to go on to secondary schools and universities.

COEDUCATION SURPRISES

Another striking difference is that boys and girls are segregated after the age of 14, and the sight of pupils of both sexes assembled in the same school hall was very novel. It was a most interesting experience and the audience treated the foreign intruder very courteously, although he was not provided with the silk hat and cane, which seem to be the accepted uniform for the Englishman on any and every occasion.

I cannot leave this subject without expressing my admiration for the fine school building at Bishop which would do credit to a fairly sized town in England, but which appears to be the rule rather than the exception here.

Having come back through this ordeal I continued my journey along steeply spiraling roads through beautiful mountain scenery which reminded me irresistibly of the Swiss Alps. Twelve snow-capped peaks made me long for a pair of ski and the thrill of a Christiana swing well and truly made at the speed of a galloping horse. The snow-capped part of this valley should be excellent as a winter sports ground, both for skiing and for bob sleighing, though which no more exciting sport exists.

CAR IN DRIFT

My admiration for the snow was considerably reduced a few minutes later when the car stuck fast in a miniature drift and could only be extricated when the heat of the combined impatience of the party had melted a sufficient quantity to enable the wheels to grip the ground once more.

Hot and weary, we climbed into the car again and drove up to Crooked Creek Camp, which to our dismay appeared to be deserted. Soon, however, a short, sturdy figure approached, and Mr. Tom Seeds, the lone guardian of the spirit, welcomed us in true frontier style.

After a sumptuous luncheon cooked by our host himself, we made a tour of inspection of the last outpost of the city's water system, set 7000 feet up among the mountains. We saw the site of the proposed Long Valley reservoir and explored part of the seven-mile tunnel which is being driven through the hills to carry the water from its mountain fastness.

I cannot help wondering how many of the citizens of Los Angeles realize the debt they owe to these lone guardians of the hills, exiled for months amid the snows of winter, who keep watch over the water which they draw so lightly from their household taps, 300 miles away.

FEAT SURVEYED

Thanks to the able guidance of my companion I had surveyed one of the great engineering feats of the world from end to end; I had inspected great reservoirs built in the making, like Halvies and Tinemaha, where Supervising Engineer Dunham had explained the construction and objects of the mile-long dam; I had seen over city power plants like that at Big Pine, equipped with the latest machinery and so scrupulously kept that one could eat one's dinner off the floor. Moreover, I had made the acquaintance of the genial frontier folk of Owens Valley and heard their account of the difficulties of the past few years. On such a matter it would be inopportune of a stranger to attempt any comment; but I could not but understand that tact, generosity and tolerant statesmanship on both sides must play a vital part in any happy settlement.

**TO THE INDUSTRIES AND
MARKETING ENTERPRISES
OF AMERICA'S WEST COAST**

To every producer and
tributor of food products
Chicago Daily News
uniquely forceful story

Chicago is universally recognized as the "center
of the nation." Strategically located in the
a great food-producing area, it is not only the
distribution of raw products of farm, stock
garden and orchard but it is the great
manufactured food products as well.

During 1928 The Chicago Daily News
1,353,680 agate lines of food advertising
than both morning newspapers, daily and
combined . . . more than all other evening
papers combined.

It has carried more food advertising than
Chicago daily newspaper for the last fifteen

Within Chicago and its suburbs alone
\$560,000,000 worth of food products are sold
annually.

And The Chicago Daily News is pre-eminently
favored medium for the grocery and food
advertiser.

Chain stores, independent retailers and independent
distributors join in this approval of The Daily News
as Chicago's most effective food advertising medium.
Let their judgment, based upon careful study of the
Chicago market and its media guide you.

THE CHICAGO DAILY NEWS

Chicago's Newspaper

SAN FRANCISCO

C. GEO. KROGNES
303 Crocker 1st Nat'l Bank Bldg.

offers a GREAT MEDIUM in a GREAT MARKET!

TWENTY-FOUR HOURS eastward from California, as the air-mail flies, lies Chicago... fourth city in the world... second market in America... distributing center for the world's richest, most compact consuming area.

Here within a radius of forty miles live more than 4,500,000 prosperous, responsive people... here are located 75,000 retail outlets for every merchantable commodity... here is a city whose two billion dollar annual retail sales total is greater than the combined totals for Baltimore, San Francisco, Seattle, Kansas City, Denver, Atlanta and Syracuse.

And the measure of Chicago is not only what it consumes but what it distributes.

Situated where rail, water and airplanes meet, it is the key city of the midwest. Its wholesale and jobbing business exceeds five billion dollars annually. Favored by every geographic and economic factor, it is able to set the style and the buying pace for an inland empire of more than 20,000,000 people.

A market and a merchandising opportunity for everything the west coast produces for general distribution.

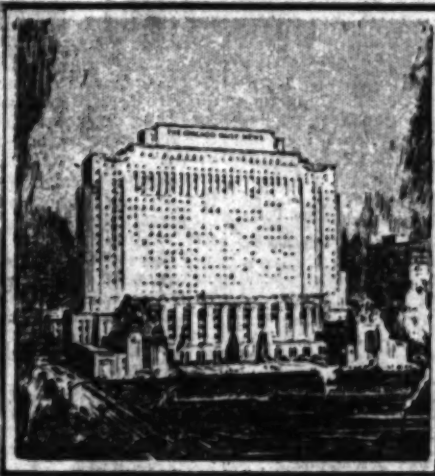

In this market a great medium — The Chicago Daily News. A good newspaper. Founded upon principles of independent, progressive journalism... edited to the changeless standards of dignity and good taste.

A Chicago newspaper. Owned, edited and operated by Chicagoans. A circulation of more than 440,000 daily... built and maintained solely on the merits of the newspaper... distributed to and accepted in the average and better-than-average home in the evenings... concentrated more than 95 per cent in Chicago and its suburbs.

A newspaper effective for its advertisers. The Chicago Daily News carried over one million more square lines of advertising than any other Chicago daily newspaper in 1928... and it has carried more advertising than any other Chicago daily newspaper for the last twenty-eight years.

To the industries and marketing enterprises of America's west coast Chicago and The Chicago Daily News offer a challenging opportunity for the profitable distribution of every good product.

Get in touch with our representatives listed below. They will tell you how this great market and medium may be fitted economically and conveniently into your 1929 merchandising program.

Within a few months The Chicago Daily News will occupy its new home, a 25-story structure of steel and limestone housing one of the most modern newspaper publishing plants in America. Fifty-three years of increasing support by the readers and advertisers of The Chicago Daily News has made this structure possible.

SOCIETY

BY JUANA NEAL LEVY

The Riviera season has not yet begun in Paris, but it is expected to be a very successful one. The Riviera is a very popular resort for the French and the English. It is a very beautiful place with a very pleasant climate. It is a very good place to spend the winter months.

Dr. and Mrs. Gilbert Fitz-Patrick of Chicago have returned to Paris from a stay on the Riviera and will be at the Hotel de Crillon for some time. Other guests of this hotel en route to the Riviera include Mr. and Mrs. Harry O. Garfield of Williamsport.

Mr. and Mrs. Howard Mackay Gordon of Baltimore have arrived in Paris and are staying with friends in the Avenue du Bois de Boulogne before leaving for the Riviera, where they are widely known members of the social circles of Cannes, Biarritz and Antibes.

Mrs. Ernest Thurbert Gregory of Philadelphia is a guest of the Theodore Roosevelt Hotel in the latter's residence in the Rue de Saint-Pere. She will join her husband on the Riviera this week.

J. H. Huchinson of New York arrived in Paris last week after crossing on the liner Majestic and will be in town visiting friends for a few days before leaving for a trip to Egypt.

Col. and Mrs. James Porter Pike, accompanied by Miss Jessie Tilley, have left Paris for the south of France and will not return to the French capital before the Easter holidays.

The Counts and Countess Constantine have returned to their residence in the Avenue Hoche in Paris after passing the holidays with the Countess Constantine's son, Herman Franch, who is now in the United States. They are leaving shortly for their home, the Villa du Parc, Saint-Jean, Cap Ferrat, where they will be for the next two months.

Rev. Frederick W. Bookman of the American Cathedral Church of the Holy Trinity has returned to Paris after enjoying a holiday on the Riviera.

Mrs. Noel J. Carpentier of Atlanta and the Avenue du Bois de Boulogne, Paris, is in Cannes for a stay of ten days. She returned down to the Riviera with Mrs. Courtland Van Cleaf of Buffalo, who has been making her residence in Versailles and expects to return to Paris this week.

Geoffrey Dodge has returned to his residence in the Rue du Bois de Boulogne, Paris, after several weeks' visiting with friends in Cannes.

Mr. and Mrs. Austin Niblack of Lake Forest, Ill., who have been at the Hotel Ritz in Paris, have left for the Riviera for the remainder of the season.

Mr. and Mrs. E. J. Anthony, who have been staying at the Hotel George V during their Paris sojourn, have gone to London.

The success of the subscription Red Cross held at the Grand Hotel in Florence, Italy, has encouraged the organization of another at the Excelsior Hotel, the proceeds to go to the District Nursing Association here in Florence.

Among the patronesses is Mrs. Margery Chier, formerly Miss Thompson of Los Angeles.

E. L. Reed, formerly of Los Angeles, first secretary of the United States Embassy in Brussels and during the absence of Ambassador

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 1:30 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cooking in the lecture room of the Southwest Building, 139 South Broadway.

PLAIN OMELETTE

Place in a sauce pan three tablespoons of butter or shortening, and allow to heat, but not brown. Beat the yolks of the eggs until lemon colored and creamy, and for every two egg yolks allow one tablespoon of cold water and beat until the egg is foamy. Beat the whites of the eggs until stiff and dry. Pour the egg yolks slowly into the whites and fold them in carefully. Pour into the hot omelette pan, take a spatula as soon as they begin to set and keep them moving from the bottom of the pan until the omelette has slightly browned, then place in the oven. As soon as a crust has formed on the top and they will spring back from the touch of your finger, remove from the oven. Loosen the edges with a spatula, slide onto a hot platter, place any desired filling in the center, fold over and place the remaining egg on the filling around the outside.

BAKED INDIAN PUDDING WITH APPLES

Mix four tablespoons of corn meal with one cup of cold water, then stir in two cups of scalded milk, continue to stir until the mixture thickens, then add one-half cup of sugar or molasses. Remove from the fire, add two well-beaten eggs, half a teaspoonful of salt, half a teaspoonful of ginger and one teaspoonful of cinnamon. Place in a well buttered baking dish four sliced apples, pour the corn meal mixture over and bake in a moderate oven for three-quarters of an hour.

Others charge d'affaires and Mrs. Reed headed the members of the Embassy who attended the Brussels court ball last week.

O. E. Hill of Long Beach, who is now residing at a Rue Lamarmore, Paris, exhibited a number of his pen-and-ink sketches at the headquarters of the American Legion, 40 Rue d'Orleans-Charron, at the last meeting of the Paris unit of the American Legion auxiliary.

Mrs. Helene Symon of Santa Barbara, has been visiting in Rome as a guest of the Grand Hotel. R. Kella and family of Los Angeles are stopping at the Hotel Excelsior.

Mr. and Mrs. Owen Porter Churchill and daughter Elizabeth Arce are on the Riviera for the winter social season. For the present they are guests of the Hotel de Provence in Cannes.

Mrs. Cornelia Reid-Pomeroy is staying at the Hotel der Fursten in Berlin for the time being.

Mrs. Frances Brune of Colchester, Eng., who has been visiting in Paris at the home of her grandmother, Mrs. J. Wayne Ouyler of California, has gone down to Cannes for a visit this month with her mother, Mrs. Richard McCreary of Santa Barbara, who is passing the season on the Riviera.

Mr. McCreary is on a business trip to the United States. At the end of her visit in the south of France, Mrs. Brune will return directly to England to rejoin her husband.

Mr. and Mrs. Paul E. Sammann of Santa Barbara are recently arrived guests of the Hotel Francis in Paris.

Mrs. L. Q. Younglove and her daughter, Miss Beale Younglove of Pasadena, who have been spending the winter in Lausanne have left there for Italy.

HOUSEHOLD SUGGESTIONS

Don't Miss Them
Towels are meant for better tasks than lifting hot dishes and pans from the stove and will burn quickly when so abused. Buy one or two 12-cent padded holders for this purpose and save the linen towels.

Should Be Removed
Ashes should never be left in the bottom of the furnace. First of all, the heat is held on the grate and apt to burn it out. Secondly, the ashes will take away from the draught and mean less heat. Remove the ashes to metal containers as soon as the fire is raked.

That Dripping Drip Pan
For the person who is always forgetting to empty the drip pan under the refrigerator, it would be worth saving pennies and have a pipe attachment to the outside of the house connected with the drain of the refrigerator. It won't take long to save sufficient pennies and it will certainly prove a joy.

PROSECUTOR REFUSES ACTION IN WIG CASE

Because Ernie Westmore, film studio employee, could not change a wig which Mrs. Frank R. Rugg had ordered is no reason for charging him with petty theft, Deputy City Prosecutor McDonald declared today.

Mrs. Rugg, in declining to issue a complaint against Westmore, McDonald told the woman, who resides at 441 North Orange Drive, that her proper remedy was a civil suit.

Westmore told McDonald that he agreed to make a wig for Mrs. Rugg and accepted \$100 as payment. When finished, the woman complained that it was too blond and Westmore said that he dyed it, only to have her again complain of the shade. Twice more it was dyed in an effort to suit her, he said, before he abandoned the attempt. He offered to give her the wig, but Mrs. Rugg refused to accept it.

Rugg is reported to be planning to build a watch factory which will produce 1,000,000 watches a year.

LACK BENNY

JACK BENNY BRIGHT SPOT ON BILLING

Marion Harris, Natacha
Natova and Others Pass
in Review

BY PHILIP K. SCHUEVER

However irresolutely one may approach a summation of the virtues of the Orpheum's "first half" this week, there can be no question about what happens once the intermission is over. The first half, as you have correctly inferred, is that portion of the program which precedes the second half; and in the current instance, it is a pretty weak stuff. On no bill within memory would it furnish sufficient cause for humas and dancing in the streets; but on the present one, it contrasts so illy with the ingratiating trio who follow hot upon its heels that its synthetic properties are just that much more transparent.

The ingratiating trio is made up of Marion Harris, Jack Benny and Natcha Tattler, who, by the way, your alarmed imagination lead you to envisage a belted singer, a casual wise-cracker and an adagio dancer. In fact, they are a performance of three-riding circus proportions. I hasten to add that each is still giving his or her separate way. Marion is a singer, and a performer; Jack Benny is only her accompanist for comic purposes, and Natcha Tattler is a personality and a voice which together do queer things to your insides, mixing half-forgotten memories of the musicals and vaudeville painted by words, and in general making of your ordinary perspective as confused a matter as this sen-

Grace Stafford and Robert Keith
 provide the young romance in "Lightnin'," the warmly human play which

MOSCOWS HEADLINE GOOD BILL

There's a dull moment on the bill at the Hillstreet—it has passed in place that program had been showing at the variety house yesterday afternoon.

With the Mosconi Brothers' new revue as a headliner, and a favorites as Clara Howard, and Darling, and Crawford and the following list of acts on the bill, the fair is doing to one of the clearest entertainment finals seen at the house in a time. "The Sad Case of Mary Jane" is a travesty on the popular play.

It is to get back to the headliners, the Mosconi Brothers, who are to follow with the work of the variety show. The Mosconi Brothers, welcome an opportunity to watch their work. This variety is now available at the Hillstreet, and along with it is to see, as usually well-acted and picturesque chorus through its pieces. There are a number of songs, and a few musical and happy costumes settings that prove all to be of the best, and to the act's credit. The variety show, you enjoy the variety, you'll find in this offering.

In addition there are Ales and the singing. These two shows, singing, are the best of the show, ranking from broom handles to guitars, but things begin to really get going only when their police dog is introduced. This is a bad one, but it's a good one. It's a bad one, but it's a good one.

For the lad who is trying to pull up some new wise-cracks to think on the girl friend, or vice-versa, the new show is a good one. Broderick as a possible source of material. This team has more concentrated comebacks than could be expected. The show is a mix of the ordinary type patter team. Take along a pencil to let 'em down. You'll turn the new show. The show is a good one.

Clara Howard, billed as the musical comedy girl, has some songs, general nonsense and patter that seems to elicit a little and Paulson offer a novelty skating act, "Flashes of the North."

And for the finale!

The entire company proceeds to make a show of the show, and that popular stage piece, "The Trial of Mary Dugan." It's cleverly worked out and good for a riot of laughter. The Mosconi Brothers, as the judge, is responsible for no small amount of the humor.

This week's screen fare is "Risky Business," the production of youth and fun featuring Eddie Quilan, the Quilian family and Alberta Vaughn.

For this who enjoy their film talkie, this is it.

MUSICAL DUTCHMEN PROVIDE NOVELTY

Derbengers From Holland Play
and Sing at Pantages;
Other New Acts

Pantages this week is a band musical Dutchmen whose piping is heard against constantly changing and gaily colorful Holland rounds.

It is perhaps their music in the act which writes home about the riders are a show in themselves. In baggy velvet breeches, their red-colored jerkins, tall pouter-necked caps, and—oh, yes—in shoes.

Stump jump or fraulein is the theme of the group. The Dutch to follow Oull-Gord to feuds his notes and is not nearly successful. However, she helps him.

or not genuine, is certainly not attractive. The act is called "The Vandenburgs from Berlin."

In other hit act of the new program is that of Miss Marylin Belliet members of her company in a series of ballet technique and acrobatic stunts. The act is a somewhat cornball from her toes excites considerable applause. A thoroughly skillful performance dance is also given by two female members of the company names unknown.

George Norcia is a blackface with undoubted enthusiasm and a line of dialogue that is a little over the top and/or new clicks with fair. George, as he explains the opening of his act, can sing like a bird, he can dance like a cat, he can juggle like a monkey, he can juggle, if he will. He does not juggle, particularly when it comes to the last. Best of all was his rendering Irving Berlin's newest song "The Little White Bird."

Clifford and Ned Brent, and a violin complete the vaudeville act.

On the screen is "The Girl on the Boat" a story of romance from the novel by Rupert Jean Hersholt is seen in a somewhat characterization of the novel. The story is told by Neil plays his daughter and her love with Malcolm Macdonald as her husband who is killed in the stage.

The story follows as a hand on the screen.

of the Animals" with Claire Melino and Alex Karmach officiating cleverly at the pianos, was the high light of the evening.

Reidson does one hear the entire carnival. It was delightfully done yesterday. The lions marched with oriental pompousness, the here and there a lioness. The lioness, the aid of Angermayer's violin, very nice piano roudades distinguished the Asiatic wild scene, the double-basses and the drums. The lioness episode, the aquarium was interesting in its music-box effects, the flute indicated in serious period.

The lioness played the swan song in exquisite melody. The lioness displayed attractive resources in many modes.

Hoozner's "Pacific 221" was presented in somewhat words of explanation by the conductor. The orchestra labored valiantly with the giant engine in sound but its grace and melody were somewhat lost in the tremendous effort. One can hear the composer do this work.

The pranks of Till as recorded by the program require a sophisticated elegance, which the orchestra receive at the hands of the Philharmonic at this "Pop" concert.

The Chinese dance from "The Chinese Dance" by "Bull," "Rimsky-Korsakov" was a very nice Strauss waltz, two folk songs by Lidawa, a novelty by the Danish composer, Nielsen, and Alfvén's Swedish Rhapsody concluded the list.

Warner Loses 'Wife' to Hero

As a youngster studying history in a school in England, H. B. Warner considered Lord Nelson, Britain's famous admiral, the greatest hero of all time. Today, in the library of Warner's Beverly Hills home, are to be found many volumes of Nelson's life—volumes that have been read and reread by this actor.

In "The Divine Lady," Corinne Griffith's costly starring vehicle now at the Carthage Theatre, it is in which Warner portrays Sir William Hamilton, the able English ambassador who finds his childhood hero winning the affection of Lady Hamilton away from his father.

.....

**HOUSE CLOSED
THIS EVENING**

In respect to the memory of Fred J. Butler, one of the lessees of the Belasco Theater, for whom funeral services are being held today, there will be no performance of "The Front Page" at the Belasco Theater tonight.

Ticket holders for tonight's performance may exchange them, at the box office, for any other performance they may desire to attend.

**LITANIES CHANTED
BY WRITERS' CAST**

*Summer Note Echoes in One-Act
Plays by Galsworthy,
O'Neill and Burke*

BY KATHERINE T. VON BLON

A sparkling and effervescent audience at the Writers' Club last week responded with clamor to the curtain raiser "The Ninety-ninth Amendment," a delectable morsel from the pen of J. H. Neebe, and then surrendered themselves to the more dissonant moods engendered by the three dramatic litanies which followed. Litanies they were, for they each and every one dealt, rather ponderously with the Grim Reaper. Four suicides in one, ending in laying it on a bit thick, to say the least, but the audience bore up well under the circumstances.

In "The Ninety-ninth Amendment," Patsy Ruth Miller displayed

very provocative back and lissom rather limber in an enchanting negation of the ubiquitous black lace nuptial veil, and also a little too much in comedy. She was a highly ornamental bit of loveliness.

Clarence Geldart as the aggressive free-fighting hansom was delightful. The young Thomas as the may-care nephew, who through wiles of his own, managed to inveigle his virtuous and youthful aunt into the incriminating negotiations, was splendid and of even performance. The playlet, ended upon a scintillant high note of surprise, which left the audience in a state of expectancy.

Eugene O'Neill, who may at will carry us to the sublime heights of spiritual ecstasy or plunge us into ugly depths of an almost insupportable gloom, here, in "The Iceman Cometh," represented by "Before Breakfast," written in the darkly full-orbed O'Neill manner. Helen Ware, who carried the entire burden upon her shoulders, was superb in her performance of lowly origin, whose reminiscences and nerving drive her unmen husband to slash his throat with a razor. It is the reaction of a woman who has been a victim, an innuendo of one of proper proportion and the culmination is inevitable. Even the audience is thrilled. It could not have borne with the sanctified lady much longer.

The untranslatable "to fluncheon," as the Spanish say it, the rhythms of life, shines with a trans-

tempered magnifying glass of the imagination of John Galsworthy. A poignant slip of beauty in the role of the mother in the little Galsworthy drama, drawn with finely modulated delicacy and exquisite balance as characteristic. The actress, who has been a premiere in this country, special permission having been granted by Mr. Galsworthy himself to Robert Montgomery to cast her in the production carried the intrinsic Galsworthy temper of mind.

As Larry Dressed, the errand boy, she was dressed in a clear etched picture of the finely schooled repression of the Anglo-American which leads him to meet the girl in the rooming house in the lips. Joan MacCleane as the girl was appealing with her charmingly naive accent. Claude King as the mother, a good impersonation of the elder brother.

"Brothers," by Edwin Burke, showed how lurid and hard-boiled in the imagination of the author of sympathy and devotion to an ideal

his denouement. There were no Jocebo humor and spicy lines to be heard. A response of approval in the audience of the old school was the crook, was realistic and pathetic. Golden-haired barbers. Leonard was quite devastatingly tough.

'Trial by Jury'
to Come Before
'Pirates' Opus

A fresh bill of fare will be offered by the D'Ory Gaiety Opera Company at the Mason Theater tonight when "Trial by Jury" presents what a certain raiser, will be known by the name of "Pirates." "Trial by Jury" is very short. It is the first joint effort of Gilbert and Sullivan, and was merely a play on the words of "Trial by Jury" by the name of "Pirates." The first part of the play has asked the two than young men to give him for his theater. There is no spoken dialogue. It is an English courtroom, and the villain of the piece is used by a dear young thing damages for breach of promise. The Granville as the Judge, Lesley Randall as the accused, and Henry Hughes as foreman of the jury. The Griffin as the usher, and Sybil Gordon as the plaintiff make up a

COHEN IS 'HOMEBICK'
"Homebick," Sammy Cohen's first feature, opens at the Fox Theater tonight. One of the Ritz will offer the Bever-ly Hills in a new playlet. Saturday the "Monday Heels" will sell "Ted McCobb's Daughter," a Mac created by Irene Rich, and on Sunday a new Fanchon and Marco "Variety" show, "A Faust," with Emil Jan-eps, will be screened Monday at by special request.

FIRST ORATORY WINNER NAMED

Anaheim Union High Girl to Represent School

Will Meet Strong Opponents in District Event

Every Oregon County in Preliminaries

Anaheim Union High School's first entrant in the Sixth National and Fourth International Oratorical Contest on the Constitution to select a representative.

Miss Melva Roquet, competing against four other students, won the right at an enthusiastic assembly last Thursday to represent Anaheim in the district elimination contest which will be held in that city April 12. She will be pitted against the best student orators from Brea-Olinda, San Juan Capistrano, Downey, Encinitas, Garden Grove, Huntington Beach, Orange and Tustin Union high schools.

This is the first time in the three years of its participation in the contest that a girl has been chosen by Anaheim Union High School and the young lady is receiving the enthusiastic backing of the community to carry on in the finals of District I.

Miss Roquet selected for the title of her winning oration "The Invisible Government and Our Duties Toward It." Her competitors were Arvel Morris, Thomas Yano, Edwin Corder and Ruby Stanley.

In the 1927 contest Arthur Greco won the right to represent this district in the Times semifinals and last year Thomas Kuchel of Anaheim High represented the county in the semifinals.

OREGON COUNTIES ALL REPRESENTED

PORTLAND (Or.) Feb. 24. (Exclusive)—Schools from every one of the thirty-six counties in Oregon have entered representatives in the preliminary oratorical contests which will lead up to the State competition and the selection of an orator to represent the State in the Pacific Coast finals of the national contest in Los Angeles on May 10. A total of 123 high schools is now entered in the Oregon competition, which shows an exceptional interest, considering that this is the first year that this State has participated.

BAR INTERESTED

Crook county, a remote district in Central Oregon, was the last county to enter. Word has been received that Prineville, the only town of any size in Crook county, is selecting a representative.

Part of the credit for lining up Oregon for a 100 per cent county representation lies with the Oregon Bar Association, which has been co-operating actively with the Oregonian, the newspaper sponsor. Both W. M. Davis, president of the Oregon Bar Association, and Judge Wallace McCamant, chairman of its contest committee, have taken a great interest in the event and have selected representatives throughout the State who are stimulating interest in those schools which have hesitated to respond to the invitation to participate.

PRIZES OFFERED

Mr. Davis has offered a \$100 trophy to the winner of the State contest in Portland and the Bar Association itself has added a cash prize of \$100. Besides that the Oregonian will pay the winner's expenses to the State contest at Los Angeles. The Bar Association also has contributed a second prize of \$50 and a third prize of \$25 for the Portland contest. That event is to be held either April 27 or May 3. The Public Auditorium, seating 5000 people, has been engaged and it is believed that there is sufficient interest to assure that it will be crowded to capacity.

Willard Isaacs and Bay City Girl to Wed

An application for license to marry was filed in San Francisco yesterday by Willard Isaacs, vice-president and general manager of the Weaver-Jackson Company. The bride-to-be is Miss Gertrude Leberman, daughter of J. Elmore Leberman of San Francisco.

The marriage is scheduled to take place at the Waldorf Hotel on March 6 next, and will be followed by a brief honeymoon, after which the young couple will make their home in Los Angeles. The groom is the son of H. Joe Isaacs, president of the Weaver-Jackson Company, and the family home is 435 South St. Ana. Miss Leberman gave her age as 23 and Miss Leberman as 21 years of age. The marriage is the culmination of a romance that began about a year ago, according to the young man's parents.

HAY FEVER AND ASTHMA STOPPED OR NO PAY

ST. MARYS, Kan.—D. J. Lane, a druggist, at 1405 Lane Building, St. Marys, Kan., manufactures a remedy for Asthma and Hay Fever in which he has so much confidence that he sends a \$1.25 bottle by mail to any one who will write him for it. His offer is that he is to be paid for it after you are satisfied with results, and the one taking the treatment to be the judge. Send your name and address today, stating which trouble you have.—Advertisement.

WASHINGTON SETS FORTH FOR HAWAII

Kinsman of Patriot Has One Piece Trouser-Vest's Invention to His Credit

George Washington, a descendant of the grandfather of the nation's first President, but who, practically,

is a manufacturer of instantaneous coffee, was among the 313 cabin passengers sailing yesterday for Honolulu aboard the Laseo liner city of Los Angeles.

Mr. Washington is a direct descendant of a Washington, grandfather of the original George Washington, a founder of Sulgrave, Mass., an ancient mansion on the Humber recently established as a shrine of the American patriot. He explained to ship-news reporters that his own nationality is rather anomalous:

"I was born in Belgium, my father was British and my mother Flemish," said Mr. Washington. "I am an American citizen. When I lived in Belgium, thirty-five years ago, my family always spoke of the illustrious relative as a 'rebel'; the first indication I had of his name was when my grandfather took me on his knee and informed me, rather sarcastically, that I must not tell a lie."

Mr. Washington wore, with obvious pride, a suit of his design, in which trousers and waistcoat are combined as one garment. He explained that this strange wardrobe, in addition to lending speed in dressing, obviates the need of belts, suspenders and twelve buttons. He is being accompanied by Mrs. Washington and their daughter, Louise.

Jail Shooting Inquiry Still Being Pushed

Although the mystery of how John N. Hawkins obtained a turnkey's revolver and was killed while attempting to shoot his way to freedom from the County Jail January 21, last, still is unsolved, the investigation is being continued in an effort to find out who was responsible for allowing the gun to reach the convict's hands. Under-sheriff Biscailus declared yesterday.

Nearly a score of prisoners have been questioned during the last week by Biscailus and Assistant Chief Deputy District Attorney Jordan. Additional clues are being obtained from time to time according to Biscailus, but no announcements will be made regarding the finding until the case is closed, he said.

Burglar Suspect Beaten Up When Found in Home

Walking into the home of S. Bejarano at 900 Temple street uninvited was enough to cause Bejarano to ask questions, but when Mariano Robles, 24 years of age, proceeded to help himself to Bejarano's property, the latter, assisted by his brother Margo, forgot the old Spanish platitude "my house and all that is in it is yours" and forcibly incapacitated Mr. Robles. Result: Robles was taken to the City Jail and booked on suspicion of burglary. In his possession Officers Valdes and Hamilton said they found a detective lieutenant's badge, No. 19. Ownership of the badge could not be determined as the police personnel department is closed on Sunday.

DENATURED ALCOHOL VICTIM FOUND DEAD

A victim of denatured alcohol, police believe, a man identified as Phil Parent, about 45 years of age, was found dead in a rooming-house at 614 East Fifth street, yesterday. Officers reported finding a bottle containing denatured alcohol in the dead man's coat pocket. Parent is said to have lived in a hotel at 403 East Fifth street. The body was removed to the County Morgue.

BANDITS WOUND MAN IN ROBBERY

Four Bakery Workers Bound and Gagged by Trio

Company's Safe and Register Plundered of \$4500

Book-keeper Shot in Ankle Calls Police and Swoons

Three bandit-safe crackers early yesterday fled to safety in an expensive automobile, carrying with them more than \$4500, following a raid on the Four S Bakery Company, 1801 Blake street, in which the bandits shot one employee and bound and gagged four others.

The bandits, masked and their clothing covered with dirt overall, entered the rear of the building with drawn guns. All five of the employees were in a hallway outside of the office when the men entered. Joseph Rivera, bookkeeper, of 1000 North Ardmore street, made a movement as the men entered and one of the bandits fired, the shot hitting Rivera in the right ankle, smashing the bone.

As the leader covered the men with a revolver, his two companions bound and gagged the four other employees, V. Evans and C. E. Evans, both of 2903 Knox avenue; E. Pedoritti, 1228 West Twenty-sixth street, and E. Gurnsey, 1803 Blake street.

After lining the victims against the wall, one man guarded them while his two companions knocked the combination knob from the safe, worked the tumblers into position and calmly removed \$3000. Working quickly, they then ransacked the entire office and took \$1500 from the cash register.

While Rivera lay in a corner nearly speechless with pain, he saw his four companions removed from the building and a few minutes later heard the roar of a car. After several attempts he finally reached a telephone and called police, who found the four employees in the rear of the building and Rivera, unconscious from loss of blood, in the inner office.

CHILDREN HUNTED BY OFFICERS

Two Girls and Three Boys Reported to be Missing as Police Push Search

Five juveniles, two girls and three boys, were the objects of county-wide police search yesterday as they still were reported missing by relatives.

Ocella, 15 years of age, and Alice Dolacarr, 13, are reported to have disappeared from their home at 1948 West Ninety-third street at 3 p.m. Friday. Ocella's description is: medium dark complexion, wearing a gray knicker jacket over a one-piece dress, tan shoes, tan socks. That of her sister: brown hair and eyes, tan coat with fur collar over a one-piece dress, black shoes and tan socks.

Douglas Strampton, 7, described as blond complexion, and wearing brown trousers, gray sweater, and brown shoes and socks, left home at 2227 Harvard street at 1:30 p.m. Saturday.

Edward, 10, and John Landis, 8, are reported to have been seen at their home at 3275 Polson street, at 3 p.m. Saturday. Edward is of blond complexion, wearing overalls over a white shirt, tan shoes and socks. His brother is of darker complexion, and wearing overalls over a blue shirt, green sweater and tan shoes.

Don Williams to Take Beach Girl as Bride Friday

Don Williams, University of Southern California football star, and Miss Floy C. Malcom will be married next Friday at 2:30 p.m. in St. Luke's Episcopal Church of Long Beach. They will make their home in Santa Ana, where Williams is office manager of the Santa Ana branch of the Wallis-Smith Company, representing the Petroleum Securities Corporation in selling Capistrano Beach properties.

Wedding invitations have been mailed by Mr. and Mrs. Charles Malcom, 3515 East Ocean Boulevard, Long Beach, the bride's parents. Miss Malcom attended U.S.C. two years ago. She is a member of the Kappa Alpha Theta Sorority. Williams is 25 years of age and a member of Sigma Chi Fraternity.

Film Capital Ships Beauty

A carload of beauty is speeding from Hollywood to New York and Broadway in a specially constructed refrigerator car of the Union Pacific Railroad. It is the first carload of cosmetics ever to be sent from the motion-picture center to the "bright lights" of Broadway.

It is a shipment by Max Factor, Hollywood cosmetician, and contains more than 5,000,000 complete make-up or enough "beauty" to hand every woman in Chicago and New York over fifteen years old a complete "face".

SAN PEDRO PLANS MEMORIAL PARK

A delegation from San Pedro is scheduled to confer with President Van Orsiff of the Park Commission, today on the plan to create a memorial park from the municipal cemetery in San Pedro, where thirty-two sailors who died in the explosion on the cruiser Memphis in 1908 are buried.

23 Million Dollars Earned and Spent Every Week

By Readers of the Sunday Times

The volume of sales which, the Sunday Times creates each week for merchants, automobile dealers, real estate agents and other business concerns, reaches proportions indeed staggering.

Single transactions amounting to a million dollars are not infrequent—as when the Sunday Times negotiates the sale of a downtown business block or a large body of land.

Retail establishments often report Monday sales—originating chiefly or wholly from Sunday Times' advertising—running into the hundreds of thousands of dollars.

Theaters, restaurants, hotels, schools, railroads, banks and investment brokers are supplied with customers.

Side by side with these large scale transactions are thousands of smaller deals effected through the Sunday Times' two great want ad sections—houses and flats rented! loans refinanced! innumerable objects sold or exchanged for other objects!

Back of this immense turn-over, equivalent in magnitude to the building of a Boulder Dam every seven months, are two reasons:

First:

The Sunday Times' circulation is numerically equal to 78% of all the families in Southern California having an income of \$5.76 a day and upwards.

Such a circulation obviously embraces practically the whole market for advertised goods!

Second:

The Sunday Times reaches these people on the one day in the week when everybody has lots of time to read.

As a result of the close scrutiny given to the Sunday Times, every advertisement has a chance to speak!

Leadership in advertising has never been sought by the Sunday Times as an end in itself.

This leadership has followed as a by-product of the Sunday Times, service to readers!

By putting readers first—

By giving an inch of editorial matter for every inch of advertising—

By keeping foremost in news and enterprise—

By these means has the Sunday Times been able to best serve the interests of advertisers and promote the general welfare of the community.
